PREMIUM
INGREDIENTS

Ashoka Powder

(Saracaindica Linn)

Ashoka Powder (Saracaindica Linn) helps to manage various gynaecological and menstrual problems in women such as heavy, irregular and painful periods.

Ashoka powder is useful in controlling internal bleeding, especially in the case of piles due to its Kasaya (astringent) property.

It is also beneficial in relieving pain and healing wounds faster due to its Ropan (healing) property.

Arjuna Powder

(Terminalia)

Arjuna helps reduce the risk of heart diseases.

It strengthens and tones the heart muscles and helps in proper functioning of the heart.

Arjuna powder also has strong anti-hypertensive property and helps reduce high blood pressure.

It serves as a good source of antioxidants and improve heart health and blood sugar control.

Ashwagandha Powder

(Withaniasomnifera)

Ashwagandha Powder (Withaniasomnifera) is identified as an adaptogen, it means that it can help your body to manage stress.

It can help to boost brain function, lower blood sugar and cortisol levels.

It helps to fight symptoms of anxiety and depression.

Gotu kola

(Centellaasiatica)

It helps in meditation and naturally balance the two sides of brain.

It helps in rejuvenating the nerves and act as tonic for brain.

It naturally helps to improve the grasping power of mind. Gotu kola has long been used as an herbal tonic to treat mood disorders and enhance memory.

It helps in enhancing & purification of breast milk also.

DEHYDRATED & SUN DRY PRODUCTS

Grapes

Sun-dried dehydrated grapes, also known as raisins, are a popular snack and ingredient used in various cuisines around the world. They are made by drying fresh grapes in the sun until they become shriveled and dry. This natural process concentrates the sugars in the grapes, resulting in a sweet and chewy treat.

Raisins are packed with nutrients, including fiber, vitamins, and minerals such as iron and potassium. They also contain antioxidants that help protect the body from free radicals, which can damage cells and lead to chronic diseases.

In addition to being a healthy snack, raisins are also a versatile ingredient in cooking and baking. They can be added to salads, trail mixes, and granolas for a sweet and crunchy touch. They are also commonly used in baked goods such as muffins, cookies, and bread.

Purple Elaichi

Sun dried dehydrated purple elaichi, also known as black cardamom, is a popular spice used in many cuisines around the world. It is a member of the ginger family and is native to the Himalayas and other regions of Asia. The spice has a smoky, earthy flavor that is more intense than that of green cardamom, which is its more commonly used counterpart.

Sun dried dehydrated purple elaichi is often used in savory dishes such as curries, stews, and rice dishes. It pairs well with meats, particularly lamb and beef, and is often used in spice blends such as garam masala. In addition to its culinary uses, the spice is also used for its medicinal properties. It is said to aid in digestion, relieve stomach issues, and improve respiratory health.

Banana Powder

Spray dried banana powder is a highly versatile and convenient ingredient made from ripe bananas that have been transformed into a fine, dry powder. This powder is created using a process called spray drying, which involves spraying a liquid slurry of banana puree through a nozzle and into a hot chamber where it is dried into a powder form.

This powder is versatile and can be used in a variety of ways, including adding it to smoothies, baked goods, and other recipes. It can also be used as a natural flavoring agent and food coloring in products such as ice cream and yogurt.

Mango Powder

Spray dried mango powder is a popular food ingredient that is derived from fresh, ripe mangoes. It is a fine, free-flowing powder that is made by drying and pulverizing mango pulp. This process removes the moisture content of the mango pulp and turns it into a stable, easy-to-use powder that has a long shelf life.

Spray dried mango powder is easy to use and store. It can be added directly to recipes or mixed with water to create a mango paste or sauce. It is also shelf-stable, which means that it can be stored at room temperature for an extended period without spoiling.

Bitter Ground Powder

Spray-dried bitter gourd powder is a powdered form of bitter gourd that has been dried using a spray-drying process. Bitter melon, also known as bitter melon, is a tropical fruit that is popular in Southeast Asia, Africa, and the Caribbean. It is known for its bitter taste and is used in traditional medicine for its health benefits.

Spray-dried bitter gourd powder is a convenient and versatile way to incorporate the health benefits of bitter melon into your diet. It can be added to smoothies, juices, and other drinks or used as a seasoning in cooking. However, it is important to note that bitter melon may interact with certain medications and should be used with caution if you are taking medication for diabetes or other health conditions.

Carrot Powder

Spray dried carrot powder is a convenient and versatile ingredient that is made by drying fresh carrots through a process called spray drying. During this process, carrot puree is atomized and sprayed into a hot air chamber, where the water evaporates rapidly, leaving behind a fine, free-flowing powder.

Spray dried carrot powder can be used in a variety of applications, including food, beverage, and supplement products. It is a popular ingredient in baby foods, soups, sauces, and baked goods, as it provides a concentrated source of nutrients and natural color.
