Setting the standard for precision shooter training

OUR RANGES:

- Zero Range: 100 to 600-yard flat range for proofing accuracy of rifles, ammo and optics.
- 1,000 yard range with multiple steel gong targets at 400-1,000 yards over gently rolling terrain.
- Canyon & Walking Course: shoot as steeply as 45 degrees and 2000 yards with side canyons that require multi-directional wind calls. Walk, climb, find a rest and take your best shot. Life-size, steel game targets appear unexpectedly just as game does.
