

K&H Construction, Inc. Summer 2023 Internship Position

Construction & Engineering Project Assistant Intern

K&H Construction – Your partners for building perfection.

At K&H Construction, Inc., we are perfectionists. We employ the best in the industry. Our leaders all boast more than 25 years' experience, and our entire team focuses on getting the job done safely and getting it done right — every time. We deliver the best. We constantly strive to demonstrate our innovative and superior capabilities in the construction industry. Our specialties are wireless solutions and horizontal directional drilling, but our portfolio includes much more. We value our customers (the tougher the better). We like to partner, plan, and problem solve with each customer — from start to finish. We believe our people are our best asset. We have been asked back time and again to strict work environments due to our commitment to quality and perfectionism on every project we take on. We believe in hiring the best so we can deliver the best. **We are looking to hire sharp, enthusiastic, and dedicated individuals to help us engineer and build during the summer of 2023.** We want candidates who are not afraid to get their hands dirty, who like a challenge, and who have a strong desire to learn and contribute. Internship opportunities are available for candidates pursuing undergraduate degrees in areas such as Construction Management Technology, Building Construction Management, Construction Engineering, and Civil Engineering.

The Construction & Engineering Project Assistant Intern will spend days working alongside our company's leaders to complete construction projects across the United States for our customers, as well as attending pre-bid meeting(s), customer meeting(s), and punch list walk(s). Working at K&H Construction in this role will provide an opportunity to gain experience by actively participating in building structures from the ground up. Qualified candidates should have a desire to play an active role in the following:

- Operate construction tools and select machinery in a safe and proper manner; Load and unload materials and machinery; Dig ditches or trenches, backfill excavations, or compact and level earth; Clear sites prior to start of construction; other duties as deemed necessary based on specific projects.
- Be capable of working in a physically demanding environment, where heavy lifting is required.
- Be able to take direction and adjust to changing priorities while at job sites.
- Produce quality work in an efficient manner.
- Work with other team members in a safe and productive environment.
- Comply with all of K&H Construction's safety processes and procedures.
- Travel up to 100% of the time, gaining the opportunity to learn about different projects and customers.
- Earn a competitive summer salary, plus overtime (*as projects permit*).

Requirements:

- GPA of 2.8 or above.
- Pursuing a degree in Civil Engineering, Construction Management Technology, Building Construction Management, Construction Engineering, or related industry.
- Valid, unrestricted driver's license.
- Ability to pass a background check and a drug screen.
