

OUR ACTION PLAN

The Palaszczuk Government is working to improve the management, use and enjoyment of this area, as outlined in the 10-year Daisy Hill Koala Bushland Directions Paper (2017 to 2027). The vision and direction of the Daisy Hill Koala Bushland was developed with input from a range of stakeholders following extensive planning that considered conservation, recreation and tourism needs and opportunities. Our Government continues to work with stakeholders, the local community and Traditional Owners on proposed actions in the area. This action plan details the first two stages of work, and some proposed future actions, to deliver on the vision for this iconic conservation park and community recreation hub.

PROJECT OVERVIEW

STAGE 1:
\$4.1 MILLION
COMPLETED (2017 - 2021)

Completed projects

The following projects have been completed in the Daisy Hill Conservation Park:

- upgraded and resurfaced Ring Road
- new seating, a water station, gathering area, warm-up track and mountain-bike service area at the trail hub
- new Disability Discrimination Act compliant tracks, boardwalks, toilet blocks, picnic shelter and tables, car parks and barbecues
- new shelters and electric barbecues for day-use areas
- Paperbark Trail and walking track upgrades to improve accessibility
- new interpretive signage
- new Nature Play areas
- revitalised Daisy Hill Koala Centre
- community projects including revegetation and planting
- sustainable trail planning and work, including a full mountain bike trail audit.

STAGE 2:
\$2 MILLION
COMMENCED (2021 - 2023)

Current projects

Detailed planning is underway on the following projects for delivery between 2022-2023 in the Daisy Hill Conservation Park:

- new barrier-free paths linking the northern and southern sides of the main picnic area
- improved barrier-free access from Dennis Road to the main picnic area
- new horse float parking area and new speed tables around Ring Road
- new mountain bike trails and upgrades to existing mountain bike and walking trails
- new toilet facilities and extra car parks at the Upper Trail hub car park.

FUTURE ACTIONS
2023 >

Further stages will be developed beyond 2023

Future works and partnerships could include:

- exploring opportunities with Traditional Owners to offer services such as performance events, guided walks and storytelling sessions
- introducing new technologies to raise public awareness and understanding of conservation priorities
- further upgrades of multi-use trails, implementing outcomes of trail planning study
- road planning and re-design study and works to address safety issues associated with shared use including pedestrian and vehicular traffic.

DAISY HILL ACTION PLAN STAGE 2

PROJECT UPDATE - JUNE/JULY 2022

THE DESIGN AND DELIVERY GROUP

The Palaszczuk Government has delivered a multi-million dollar package of funding to invest in more conservation measures and facilities at Daisy Hill.

Thanks go to a dedicated group of local residents who formed the Design & Delivery Group and worked together with the government to design trails, trail head upgrades, accessibility and mobility upgrades and new amenities.

Members comprised of representatives from the following organisations/ areas within the community

- Daisy Hill Trail Care group
- RATS Cycling Club
- Daisy Hill Natural Area Volunteer group
- Elements Retirement Village
- Walking Groups that utilise Daisy Hill Conservation area
- Local residents

I would like to thank the Group for their time and commitment to our community and the Daisy Hill Conservation Park.

MESSAGE FROM MICK

Dear Neighbour,

As Queenslanders we are spoilt for choice when it comes to idyllic locations to get amongst nature.

Whenever anyone asks me what's my favourite spot in the state, I answer Daisy Hill Conservation Park straight away.

For me, the bushland that's home to Daisy Hill Koala Centre has long been the centre of why we as locals love to call this place home. It's one of those incredible local places where horse and bike riders, as well as walkers and runners can all get active in a clean, green environment.

Beyond that it is a showcase of urban conservation, that I protect fiercely as a custodian for future generations. That's why I've been determined to work with our local community to make this plan a reality.

As a government, we recognise the importance of sport and recreation and the importance of conserving bushland for flora and fauna as well as education.

I am delivering on my commitment to work with locals and user groups to ensure the improvements to recreational facilities provide an urban environment for people of all ages and abilities to get outdoors and get active—and benefit those who are fortunate to live close by.

Daisy Hill Conservation Park is an iconic attraction in our community.

It is enjoyed by thousands from our community and visitors each week. Many people would like to see the amenity and conservation of Daisy Hill preserved and enhanced - that's what this plan will deliver.

Yours sincerely,

Mick de Brenni MP

Replace all speed humps with speed tables to accommodate horse floats

Relocated horse float car park & improved site access
Decommission old toilet block

New amenities building

Additional car spaces

DAISY HILL BUSHLAND VISION

Daisy Hill Koala Bushland is conserved as a special place of natural value where the community and visitors are immersed in discovery, learning and active healthy enjoyment of nature and its conservation.

MESSAGE FROM A LOCAL

I have lived in this neighbourhood for many years, and I will never grow tired of Daisy Hill Park. It is such a wonderful piece of bushland in the heart of our suburban community.

I have loved seeing all the upgrades to the park over the years and I am really excited for the next stage that include accessibility upgrades.

It is important that the park can be enjoyed by all.

PAUL (Local resident)
