Actually I think the misspelling is deliberate & means: op id

Operation ID

Operation Identified

Trump held a press conference stating info was recovered during the raid on Baghdadi. From recovered cables. Dept State Cables containing ISIS Origins/Op ID for ISIS

Oct 29

The OP ID!

Timber Sycamore!

The recovered cables confirm Timber Sycamore!!!!!!

Exposed cables. Op ID

Oct 29

The table the cables are on. Made of wood. It's exposed wood!

Lugansk Cartridge Works...

Take a wild guess what country...

Ukraine!

A company that was almost bankrupt until...

US\$ pours in:

<https://informnapalm.org/en/kazakh-trace-luhansk-cartridge-works-case/>

Oct 30

They were capable of producing millions of cartridges of ammo monthly, in different calibers/chambers:

- 9×18 cartridges with a lead bullet core – 1-1.5 million pieces per month;
- 9×19 cartridges with a lead bullet core – 1-1.5 million pieces per month;
- 45×39 cartridges with a lead bullet core – 1-1.5 million pieces per month.

Plus shipping:

and labeling of the goods look interesting, whereby the goods are to be shipped in corrugated cardboard boxes, in a packaging that ensures shelf life within the warranty period of storage – 1 year from the date of sale (*which matches the specifications of simple packaging spotted in Tbilisi*).

I only found this info. I did not create any of this. Apparently it is sourced to a group called [#UkrainianCyberAlliance](#)

So that definitely confirms the Ukraine connection, as far as I am satisfied to believe.

Probably a few more layers of LLC shell companies and such.

Looking up one connected lead right now called Mustang Corporation..

Sounds American..

Maybe I should just call them and say:

"Can I speak to Hunter Biden, please"

Too soon?

1st one:

Gabriella Solaini, Industrial Account Manager

"Her main activity is supporting companies in identifying new business opportunities on a global scale and in making the right connections in order to create new international strategic partnerships and export channels."

Pretty big responsibility. Would probably mean she has a degree in international business or something right?

Nope.

She's a dentist:

Gabriella is a graduate of the Faculty of Medicine and Dentistry, "Sapienza" University of Rome and holds a Master's Degree in Dentistry. Gabriella is member of the Association of Medical Doctors of the Province of Rome (OMCEO).

Well at least we know where her handlers recruited her from before she suddenly took on managing logistics globally for an arms manufacturer:

Prior to Epicos, Gabriella worked in Rome, Italy, providing consultancy services to several state and private medical centres, including the Eastman Dental Hospital and the Celio Military Hospital.

Ok so...

Here's the dots connected:

ISIS formed by Op Timber Sycamore

Funded \$6BN from US Dept State

Buys arms from China

Ammo from Ukraine Lugansk

Lugansk owned by Ukroboronprom

Ukroboronprom State owned:Ukraine

Biden &amp; Obama replace Ukraine Govt

Put in Poroshenko

See the dots?

**The scandal rocked Ukrainian politics, with some arguing it was a major factor in the loss of the presidency by Petro Poroshenko, given that the son of his business associate Oleh Hladkovskiy is alleged to be a mastermind behind the scandal.**

Oct 30

I'll try to trace the weapons from China next.

Haven't even had coffee yet!

3 3

Oct 30

Ok yeah... so arms deals for Syria have Chinese AND Russian manufactured weapons systems.

I'd be hard pressed to believe Russia is deliberately supplying arms to a C\_A proxy army (ISIS/Op Timber Sycamore) used to topple Assad.

If Assad is toppled, Russian interest diminishes..

Replying to  
There you go.  
I wonder if the energy company that Biden's son Hunter worked for has any pending pipeline contracts that they wanted ran through Syria to the Ukraine.

I bet Syria refused to accept those contracts (Russia/Syria allies)

Keep digging....
