Anons

@Johnheretohelp was brave enough to come forward and give us some crumbs to dig on.

I did my best to capture all the info in the threads, with responses.

Help keep him in the light, safe, and look into the information he's given us.

Various other things but they weren't violent they weren't really racist. But the FBI infiltrated supply them with weapons and plans got them riled up against bigger targets like federal judges on the supreme Court. This group got a talented chemist who developed a new type

Of liquid explosive. Under the direction of FBI. The doj FBI we're pushing these people towards attacking the supreme Court, in reality they wanted them to take out certain judges so that Obama could stack the court before he left office, so Hillary would have scotus approval

On everything she did. I exposed their plans and they came down on me like an anvil. I was credited was saving a lot of lives and ruining mine in the process. But I documented everything I managed to save samples records pictures formulas, it was my only protection

FBI should be disbanded immediately and permanently. Want to see one of the examples of this explosive? The chemist blew himself up and injured 19 officers, and took out part of his neighborhood a while back, others involved got 25 years in prison.

This FF group of the FBI is out of Boston, Mueller anybody, the same group that helped orchestrate the Boston Marathon bombing. One of the people who helped build those bombs is the chemist that's why he's dead. FBI cleaning things up, covering their involvement

Under Obama there was no terrorism other than white terrorism, I'm sure you remember it's why Mueller and Comey in the FBI concentrated on sovereign citizens and other white groups. And they are still doing so now if you speak up you're a conspiracy theorist and a danger

One of those involved went on to kill people at recruiting stations in Chattanooga TN. The FBI DOJ could have stopped it, chose not too, and have plenty of blood on their hands.

These are not facts that only you know, hopefully. I believe you John...Anon's are just a very untrusting bunch... I mean, look at what we've been thru for 100 years. I hope my asking you has not put you or yours in further danger. Everyone is just lurking feeling it out...

Are these people fundamentally evil? Or have they just sold their souls, and our country, for good ol fashioned money and power?

2 4

John @Johnheretohelp · 53m

Most of them were compromised many years ago, if they weren't compromised and therefore controlled they never would have been promoted. That's why there's so many of them they were placed in those positions for a reason. They are dirty controlled and can't review anyone else

We all know we are being watched, you especially.

Can I pray for you?

Lord God,

Please protect John, and his family. Bless this man and keep him in your protective light for being brave enough to speak up.

Heal his pain and help us in the ways you need to spread the truth.

Amen

John @Johnheretohelp · 48m

Always! And I can't thank you enough, that means more to me than anything else.

]Lyndon[(stars) @TexasWhiteHats · 45m

The chans, and Anons, are watching as well.

Give them something to dig on and watch the magic happen.

IF it will not put you in a worse place.

There is an amazing hive mind ready to work.

Do not feel pressured, whether now or later.

You drop...we will dig

(they are brilliant)

John @Johnheretohelp · 43m

I put up a website about two weeks ago and they quashed it. Only took them about 4 hours. The really really big one has to come out as bad as everything is it all pales in comparison.

]Lyndon[(stars) @TexasWhiteHats · 40m

You don't need a website.

Trust me...the good guys eyes watching right now will devour whatever drops you give.

I know you've seen the research they are capable of, and how fast it happens...and how far it spreads.

Brilliant minds!
