

We invite you to visit our booth at ACREX INDIA 2020, South Asia's largest exhibition on Refrigeration, Air conditioning, Ventilation and Intelligent buildings.

We have a plethora of innovative products to showcase at our stall, here are a few to them.

CARYPURE 300

- ✓ Centralised Air purifiers. Pressurizing space with Fresh Air
- ✓ Superior Grade, long life multi stage filters
- ✓ Removes SOx, NOx, H2S, VOC's & other Toxic Gases
- ✓ Smart Control Panel displaying PM2.5, VOC & Filter status
- ✓ Affordable and Readily available Filters
- ✓ Small footprint & versatile design for 100% Fresh Air or Partial Re-circulation
- ✓ Universal design for any site configuration
- ✓ Unmatched Performance with minimal noise

RQM F3-3135-BI-QG

- The latest generation fan from Nicotra Gebhardt — RQM Multi Evo. This product sets a new benchmark in Fan industry on Energy efficiency & low noise levels. It offers a range of single EC fan up to 50,000 cmh & 2000 pa. At the same time it enjoys the benefits of being compact, easy to clean and maintain.
- It won 2019 Runners up ACREX Award for Excellence, under the Energy Efficiency Category. This product also won the Commercial HVAC product of the year in the prestigious UK H&V Awards.

CIRCULAR HYDRONIC CASSETTE

Caryaire showcases India's first chilled water Circular cassette unit which has a very elegant design that ensures 360degree air flow pattern ensuring air moving in all directions uniformly. Its unique circular design allows Architects to explore different ceiling designs. Circular cassette unit comes with 3speed motor, with cordless remote, drain pump and fresh air arrangement as standard features.

See you all there!
