FINANCIAL SECTION

To The Honorable City Mayor and
Council Members Comprising the
City Council of
City of Stratford, Texas

INDEPENDENT AUDITORS' REPORT

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Stratford, Texas, as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Stratford, Texas, as of September 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Stratford, Texas, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Stratford, Texas's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if

there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Stratford, Texas's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Stratford, Texas's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule, the Schedule of Changes in Net Pension Liability and Related Ratios, the Schedule of Employer Contributions, and the Schedule of Changes in Total OPEB Liability and Related Ratios on pages 42 – 46 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The City has omitted the Management's Discussion and Analysis (MD&A) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. The MD&A, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The independent auditors' opinion is not affected by the omission of the MD&A.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Stratford, Texas's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

CITY OF STRATFORD, TEXAS
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2022

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balance - governmental funds	\$ 1,346,754
Capital assets used in governmental activities are not current financial resources and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.	1,233,115
Certain accounts receivable are not available to pay for current-period expenditures and, therefore, are shown as unavailable revenues in the fund financial statements	26,479
Pension and OPEB contributions paid after the measurement date, December 31, 2021, and before September 30, 2022 are expensed in the governmental funds and shown as deferred outflows of resources in the government-wide financial statements.	
Pension contributions	30,121
OPEB contributions	504
Pension and OPEB losses, deficient earnings, and assumption changes are shown as deferred outflows of resources in the government-wide financial statements.	
Pension economic/demographic losses	3,038
OPEB assumption changes	4,443
Pension and OPEB gains, excess earnings, and assumption changes are shown as deferred inflows of resources in the government-wide financial statements.	
Pension economic/demographic gains	(7,594)
Pension excess earnings	(50,302)
OPEB economic/demographic gains	(2,517)
OPEB assumption changes	(292)
Long-term liabilities are not due and payable in the current period, and therefore, are not reported in the funds:	
Capital leases	(7,357)
Compensated absences	(8,912)
Net pension liability	(5,600)
Total other post-employment benefit obligation	(23,947)
Net position - governmental activities	<u><u>\$ 2,537,933</u></u>

The notes to the financial statements are an integral part of this statement.

CITY OF STRATFORD, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2022

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds:	\$ 375,694
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which capital outlays, \$142,870, exceeded depreciation, \$105,151, in the current period.	
	37,719
Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. This amount represents the change in unavailable revenue.	
	(1,552)
In the Statement of Net Position, incurring debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayments of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position. Principal repayments:	
Capital leases	4,875
Some expenses reported in the Statement of Activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
Compensated absences, net change	2,371
Deferred outflows of resources related to pension and OPEB liabilities, net change	2,025
Deferred inflows of resources related to pension and OPEB liabilities, net change	(40,154)
Net pension liability, net change	54,046
Total other post-employment benefit obligation, net change	(4,297)
Change in net position - governmental activities	\$ <u><u>430,727</u></u>

The notes to the financial statements are an integral part of this statement.

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Stratford, Texas (City) are prepared in conformity with accounting principles generally accepted in the United States of America (generally accepted accounting principles) (GAAP) for local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant accounting and reporting policies of the City are described in the following notes to the financial statements.

A. Financial Reporting Entity

The City, incorporated in 1907, adopted the powers of cities and towns under the provision of Title 28, Revised Civil Statutes of Texas, 1925, as amended. The City Council, which is made up of up to five Council Members and the Mayor, is the general governing body of the City. The City provides the following services as authorized by the statutes of the State of Texas: administrative (e.g., tax collection), judicial (municipal court), public safety (police and fire departments), road and bridge, public facilities, and public services (e.g. animal control, etc.).

Discretely presented component unit

In 1997, the Stratford Sales Tax Corporation was incorporated by the State of Texas. The purpose of the corporation is to promote and develop industrial, manufacturing, and retail enterprises, and to promote and develop new and expanded business enterprises, and to promote and encourage employment and the public welfare of the City. The City Secretary is named by the articles of incorporation as the registered agent for the Corporation. The seven member board of directors is appointed by the City Council. The Corporation's revenues are derived from a portion of the City's sales tax collections.

B. Government-Wide and Fund Financial Statements

Government-Wide Statements

The **government-wide financial statements** include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the City. The effect of inter-fund transfers has been removed from the government-wide statements but continues to be reflected on the fund statements. Governmental activities are supported mainly by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities reflects the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

B. Government-Wide and Fund Financial Statements – Continuation

Fund-Level Statements

Separate **fund financial statements** are provided for governmental funds and fiduciary funds even though the latter are excluded from the government-wide financial statements. The General Fund meets criteria as a ***major governmental fund***. Each major fund is reported in separate columns in the fund financial statements. Non-major funds include the other Special Revenue funds and Debt Service fund. The combined amounts for these funds are reflected in a single column in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The **government-wide financial statements** are reported using the economic resources measurement focus and the accrual basis of accounting, as is the proprietary fund. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Major revenue types which have been accrued are intergovernmental revenue and charges for services. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

Revenues are classified as *program revenues* and *general revenues*. Program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, investment earnings, and other miscellaneous revenues.

The effect of inter-fund activity has been eliminated from the government-wide financial statements.

Governmental fund level financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as unavailable revenue.

Revenues susceptible to accrual include property taxes, fines, forfeitures, licenses, interest income, and charges for service and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Inter-fund eliminations have not been made in the fund financial statements.

Expenditures generally are recorded when a fund liability is incurred; however, expenditures related to compensated absences and claims and judgments, are recorded only when the liability has matured and payment is due.

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation – Continuation

The City reports the following major governmental fund:

General Fund – The *General Fund* is the general operating fund of the City. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property, sales, and franchise taxes, intergovernmental revenues and investment of idle funds. Primary expenditures are for administrative, judicial, public facilities, public safety, highways and streets, public services, and capital acquisition.

The City reports the following major proprietary fund:

Utility Fund – The *Utility Fund* is the City’s Waterworks and Sewer System Fund. It accounts for the costs of providing water, wastewater and solid waste services to the residents.

Additionally, the County reports the following fund types:

Special Revenue Funds – The *Special Revenue Funds* account for the proceeds of specific revenue sources (other than fiduciary funds) that are legally restricted to expenditures for specified purposes.

Debt Service Fund – The *Debt Service Fund* accounts for the accumulation and disbursement of resources associated with the City’s debt obligations.

D. Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

E. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity

1. Deposits and Investments

The City’s cash and cash equivalents are considered to be cash on hand, demand deposits and deposits within public fund investment pools as well as investments in certificates of deposits with an original maturity of 90 days or less. Statutes authorize the City to keep funds in demand deposits, time deposits, or securities of the United States. The City's custodial banks are required to pledge for the purpose of securing City funds, securities of the following kind, in an amount equal to the amount of such City funds: bonds and notes of the United States, securities of indebtedness of the United States, bonds of the State of Texas, or of any county, city, or independent school district, and various other bonds as described in Texas Statutes.

The City is required by Government Code Chapter 2256, the Public Funds Investment Act (“Act”), to adopt, and publicize an investment policy. That policy must be written, primarily emphasize safety of principal and liquidity, address investment diversification, yield, and maturity and the quality and capability of investment management, and include a list of the types of authorized investments in which the investing entity’s funds may be invested, and the maximum allowable stated maturity of any individual investment owned by the entity.

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

E. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

1. Deposits and Investments – Continuation

The Act requires an annual audit of investment policies. Audit procedures in this area, conducted as a part of the audit of the basic financial statements, disclosed that in area of investment practices, management has established and reports appropriate policies. The City adheres to the requirements of the Act. Additionally, investment practices of the City are in accordance with local policies.

2. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of inter-fund loans) or “advances to/from other funds” (i.e., the noncurrent portion of inter-fund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the City. Program grants are recorded as revenues at the time all eligibility requirements established by the provider have been met.

All accounts receivable for the Utility Fund are shown net of an allowance for uncollectible accounts. The allowance is comprised of balances in excess of 90 days in addition to specifically identified accounts that will probably be uncollectible. The allowance for uncollectible accounts in the Utility Fund is \$65,000 at September 30, 2022.

Payables consist of vendor obligations for goods and services as well as funds payable to others when the criteria for their release have been met.

3. Property Tax Calendar and Revenues

Property taxes are based on taxable value at January 1 and become due October 1 and past due after January 31 of the following year. Tax collections after February 1 are treated as late payments and are subject to penalty and interest. Uncollected taxes from the current tax roll become delinquent on July 1 and are subject to additional penalties and interest. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property tax receivables for delinquent levies are shown net of an allowance for uncollectible accounts of \$128,637.

**CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

E. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

4. Restricted Assets/Funds

The following accounts reflect restricted status by third-party or statutory obligations for specific purposes:

- Other Non-Major Governmental fund balances (amounts restricted for other specific purposes such as technology requirements for the municipal court, enhancement of law enforcement operations with seized funds, and the promotion of tourism to the City. All restrictions are enacted according to Texas statutes.)
- In addition to statutory restrictions the City has also received donations from outside donors. Those donations are restricted for the maintenance and upkeep of the cemetery memorial.

5. Capital Assets

Capital assets, which include land, buildings and improvements, infrastructure, and equipment, are reported in the government-wide financial statements. Infrastructure (e.g. water/wastewater transmission lines and facilities) and equipment are reported in the Utility Fund and in the business-type activities column in the government-wide financial statements. According to the City's capitalization policy, capital assets are defined as individual assets (or systems of assets) having a cost of \$15,000 or more for buildings and improvements, infrastructure, and leasehold improvements and \$5,000 for equipment and machinery and an estimated useful life in excess of one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

When capital assets are purchased, they are capitalized and depreciated in the government-wide financial statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated lives:

Buildings and improvements	7 - 40 years
Machinery and equipment	5 - 20 years
Infrastructure	40 years

Capitalized Interest

Interest costs are capitalized (net of interest earnings on invested debt proceeds) when incurred by proprietary funds when debt proceeds were used to finance the construction of assets. There was no interest capitalized during the current fiscal year.

6. Compensated Absences

A liability for unused vacation and comp time for all full-time employees is calculated and reported in the government-wide financial statements. For financial reporting, the following criteria must be met to be considered as compensated absences:

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

E. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

6. Compensated Absences – Continuation

- leave or compensation is attributable to services already rendered
- leave or compensation is not contingent on a specific event (such as illness).

Per GASB Interpretation No. 6, liabilities for compensated absences are recognized in the fund statements to the extent the liabilities have matured (i.e. are due for payment). Compensated absences are accrued in the government-wide statements.

Regular full-time employees are entitled to vacation of up to one week after 90 days of employment, two weeks after one year, and three weeks after eleven years of service. Vacation time earned, but not taken, is paid upon termination, but cannot be accumulated beyond one calendar year (one week maximum accumulation). Accrued vacation leave is accrued in the government-wide financial statements.

7. Long-term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City has multiple items that qualify for reporting in this category. They are the deferred charge on refunding, and the contributions and other items related to the City's pension and OPEB plans reported in the government-wide and proprietary statements of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. The separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has multiple items that qualify for reporting in this category. One item arises only under a modified accrual basis of accounting; accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other items are related to the City's pension and OPEB plans and are reported in the government-wide and proprietary statements of net position.

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

E. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

9. Pensions and Other Post-Employment Benefits

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Texas County and District Retirement System Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the other post-employment benefit (OPEB) asset or liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's Texas Municipal Retirement System Supplemental Death Plan, and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds can consist of the following:

Non-spendable Fund Balance – includes amounts that are (a) not in spendable forms, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

Restricted Fund Balance – includes amounts that are restricted for specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of the resource providers.

Committed Fund Balance – includes amounts that can only be used for the specific purposes determined by a formal action of the City's highest level of decision-making authority, the City Council. Commitments may be changed or lifted only by the City taking the same formal action that imposed the constraint originally (for example: resolution or ordinance).

Assigned Fund Balance – includes amounts intended to be used by the City for specific purposes that are neither restricted nor committed. Intent is expressed by (a) City Council or (b) a body (budget, finance committee, or City Official) to which the assigned amounts are to be used for specific purposes. Assigned amounts also include all residual amounts in governmental funds (except negative amounts) that are not classified as non-spendable, restricted or committed.

Unassigned Fund Balance – this classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

E. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation

11. Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three categories.

Net Investment in Capital Assets – This amount consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds.

Restricted Net Position – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments, enabling legislation, or constitutional provisions.

Unrestricted Net Position – This amount includes all net position amounts that do not meet the definition of “net investment in capital assets” or “restricted net position.”

12. Fund Balance Policies

When the City incurs an expenditure for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first, then unrestricted funds. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Committed fund balance amounts may be used for other purposes with appropriate action by the City Council to either modify or rescind a fund balance commitment. Commitments are typically done through adoption and amendment of the budget.

The City’s highest level of decision-making authority is the City Council. The Council has not yet delegated the authority to assign fund balance amounts to a specific individual nor does it have a policy to authorize the assignment of fund balances outside the Council.

13. Income Taxes

The Stratford Sales Tax Corporation has filed with the Internal Revenue Service to be treated as an exempt organization under IRC section 501(c)(6), except to the extent of any unrelated business income.

The Stratford Sales Tax Corporation follows the provisions of uncertain tax positions as addressed in FASB Accounting Standards Codification 740-10-65-1. Management has considered the tax positions and believes that all of the positions taken in its federal exempt organization tax return are more likely-than-not to be sustained upon examination.

The Stratford Sales Tax Corporation’s federal returns for the years ended September 30, 2019 through 2022 could be subject to examination by the Internal Revenue Service, generally for 3 years after they are filed.

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1, the proposed budget is submitted to the City Council.
2. The City Council provides for a public hearing on the City budget subsequent to August 15, and prior to the levy of taxes by the City Council.
3. Prior to October 1, the budget is legally adopted by order of the City Council for the General Fund, the Cemetery Special Revenue Fund and the Utility Fund.
4. The budget is prepared by fund and department with the legal level of control at the department level. Administrative control is maintained through the establishment of more detailed account or object class budgets within the departments. Emergency expenditures to meet unusual and unforeseen conditions which could not, by reasonable diligent thought and attention, have been included in the original budget, whereby total expenditures of a department have been increased must be authorized by the Council as emergency amendments to the original budget. Management may not amend the budget at any level without approval of the City Council. The Council has the authority to make such changes in the budget, in its judgment of facts, the law warrant, and the interest of the taxpayers demand, provided the amounts budgeted for the current expenditures from the various funds for the City do not exceed appropriations, including fund balances from the prior fiscal periods. Amounts shown in the financial statements represent the original budget amounts and all supplemental appropriations. Supplemental appropriations to the original adopted budget are in the Final Budget Amounts column of the Budgetary Comparison Schedule for the General Fund.
5. Budgets for the General Fund and the Cemetery Special Revenue Fund are adopted on a basis consistent with GAAP on the modified accrual basis of accounting on an annual basis. The budget for the Utility Fund is adopted on a basis consistent with GAAP on the accrual basis of accounting.
6. Formal budgetary integration on an annual basis is employed as a management control device during the year for the General Fund, the Cemetery Special Revenue Fund and the Utility Fund.
7. All appropriations lapse at the end of the City's fiscal year and may be re-budgeted the next year.

B. Excess of Expenditures Over Appropriations

For the year ended September 30, 2022, expenditures exceeded appropriations in the Judicial (\$3,294), Public facilities (\$926), and Capital outlay (\$65,660) functions. The over expenditures in these areas were funded by lower than expected expenditures in every other function of the City. In total, the City's expenditures were under budget by \$126,255.

C. Deficit Fund Equity

The Utility Fund had deficit unrestricted net position of \$1,029,290. The fund incurred expenditures in excess of the collected revenues for utility billing services. The City plans on covering these deficits with subsequent collections netted against reduced expenditures, combined with operating transfers from the General Fund.

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 3 – DEPOSITS AND INVESTMENTS

Following is a reconciliation of the City's cash and deposit balances as of September 30, 2022:

Cash and deposit balances consist of:

Cash on hand	\$ 540
Bank deposits	727,410
Certificates of deposit (interest rate at .12%)	14,276
Total	<u>\$ 742,226</u>

Cash and deposit balances are reported in the basic financial statements as follows:

Government-wide Statement of Net Assets:

Governmental activities:

Unrestricted \$ 374,123

Business-type activities:

Unrestricted 4,158

Component units:

Unrestricted 363,945

Total \$ 742,226

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Days)</u>
Governmental activities		
Certificates of deposit (interest rates at .50%)	\$ 41,143	
Component unit		
Certificates of deposit (interest rate at .16%)	<u>29,256</u>	
Total fair value	<u>\$ 70,399</u>	
Portfolio weighted average maturity		<u>257</u>

Custodial credit risk – deposits. As of September 30, 2022, the carrying amount of the City's deposits with financial institutions was \$812,085 and the bank's balance was \$880,962. Of the bank balance, \$250,490 was insured through the Federal Depository Insurance Corporation (FDIC), and \$630,472 was collateralized with securities held by the pledging institution's agent in the City's name.

Interest rate risk is the risk that adverse changes in interest rates will result in an adverse effect on the fair value of an investment. The City manages its exposure to interest rate risk by maintaining its cash in interest-bearing demand accounts, or in certificates of deposit with weighted average maturities of one year or less.

Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. State law and City policy limit investments in local government pools to those rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service.

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 3 – DEPOSITS AND INVESTMENTS – Continuation

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single insurer. As of September 30, 2022, all of the City's carrying value of cash was deposited with the City's depository bank and was adequately secured as described above.

NOTE 4 – CAPITAL ASSETS

Capital assets are recorded at cost or, if donated, at fair market value at the date of receipt. In accordance with GASB Statement No. 34, depreciation policies were adopted to include useful lives and classification by function.

Capital asset activity for the year ended September 30, 2022 was as follows:

	Beginning Balance	Increases	Decreases	Transfer/ Reclassifications	Ending Balance
Governmental activities:					
Capital assets, not being depreciated:					
Land	\$ 80,070	\$ -	\$ -	\$ -	\$ 80,070

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 5 – PROPERTY TAX

The State of Texas Constitutional tax rate limit for both operations and debt service is \$1.50 on each \$100 of assessed valuation. The tax rate on the 2021 tax roll was \$.876521 per \$100, which means that the City has a tax margin of \$.623479 per \$100 and could raise up to \$656,435 additional revenue from the 2021 assessed valuation of \$105,285,890 before the limit is reached.

Real and personal property values are assessed for the period January 1 to December 31, as of January 1 at which date property taxes attach as an enforceable lien on property. Taxes are levied by October 1 of the current year and are collected from October 1 to June 30 of the following year. Payments received after February 1 are considered late and are subject to penalty and interest. Taxes become delinquent on July 1 of the following year.

NOTE 6 – RETIREMENT PLAN

Plan Description:

The City provides pension benefits for all of its full-time employees, other than firemen, through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing state statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations for of the contributions, benefits, and actuarial methods and assumptions used by the System. This report may be obtained from TMRS' website at www.TMRS.com.

Benefits Provided:

The plan provisions are adopted by the governing body of the City (employer), within the options available in the Texas state statutes governing TMRS. Members can retire at ages 60 and above with 5 or more years of service (10 years in some cities) or with 20-25 years of service regardless of age (depending on the city's plan chosen). Members are vested after 5 years of service (10 years for some cities).

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the City within the actuarial constraints imposed by TMRS so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by TMRS.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 6 – RETIREMENT PLAN – Continuation

Employees Covered by Benefit Terms:

At September 30, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	9
Inactive employees entitled to but not yet receiving benefits	21
Active employees	13

Contributions:

Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate for an employee is the contribution rate which, if applied to a member's compensation throughout their period of anticipated covered service with the municipality, would be sufficient to meet all benefits payable on their behalf. The salary-weighted average of the individual rates is the total normal cost rate. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

The City contributes to TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect (i.e., the December 31, 2019 valuation will determine the contribution rate beginning January 1, 2021).

The City contributed using the actuarially determined rate of 4.88% with a supplemental rate of 4.13% for the months of the accounting year in 2021 and 9.57% for the months of the accounting year in 2022. The contribution rate payable by the employee members is 7.0% for fiscal year 2022 as adopted by the governing body of the City. The employee contribution rate and the employer contribution rate may be changed by the governing body of the City.

Net Pension Liability:

The City's net pension liability was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date.

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 6 – RETIREMENT PLAN – Continuation

Actuarial Assumptions:

The total pension liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.5% to 11.5% including inflation
Investment rate of return	6.75%
Cost-of-living adjustments	None

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The actuarial assumptions that determined the total pension liability as of December 31, 2021 were based on the results of an actuarial experience study for the period January 1, 2010 – December 31, 2014, except where required to be different by GASB 68.

Discount Rate:

The discount rate used to measure the total pension liability was 6.75%. The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 6 – RETIREMENT PLAN – Continuation

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments. If an evaluation of the sufficiency of the projected fiduciary net position compared to projected benefit payments can be made with sufficient reliability without performing a depletion date projection, alternatives methods to determine sufficiency may be applied.

In order to determine the discount rate to be used by the employer we have used an alternative method to determine the sufficiency of the fiduciary net position in all future years. Our alternative method reflects the funding requirements under the employer's funding policy and the legal requirements under TMRS.

1. TMRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods.
2. Under TMRS, the employer is legally required to make the contribution specified in the funding policy.
3. The employer's assets are projected to exceed its accrued liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost.
4. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable.

Based on the above, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes.

NOTE 7 – POST EMPLOYMENT DEFINED BENEFIT GROUP TERM LIFE INSURANCE PLAN

Plan Description

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The city elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

Plan Benefits

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an other postemployment benefit ("OPEB") and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded OPEB plan (i.e. no assets are accumulated). The member city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers.

Employees Covered by Benefit Terms

At December 31, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	4
Inactive employees entitled to but not yet receiving benefits	3
Active employees	13

Continued

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 7 – POST EMPLOYMENT DEFINED BENEFIT GROUP TERM LIFE INSURANCE PLAN – Continuation

Total OPEB Liability

The City's total OPEB liability was measured as of December 31, 2021, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The total OPEB liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

All actuarial assumptions that determined the total OPEB liability as of December 31, 2021 were developed primarily from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2010 to December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013.

For calculating the OPEB liability and the OPEB contribution rates, the Gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with male rates multiplied by 109% and female rates multiplied by 103%. Based on the size of the city, rates are multiplied by an additional factor of 100.0%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements.

Discount Rate

The SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75, paragraph 4b, (i.e., no assets are accumulated for OPEB). As such the SDBF is considered to be a single-employer unfunded OPEB plan (and not a cost sharing plan) with benefit payments treated as being equal to employer's yearly contributions for retirees. In accordance with paragraph 155, the applicable discount rate for an unfunded OPEB is based on an index of tax exempt 20-year municipal bond rates rated AA or higher. As of December 31, 2021, the discount rate used in development of the Total OPEB Liability was 1.84% compared to 2.00% as of December 31, 2020.

	<u>\$ 243,203</u>	<u>\$ 243,203</u>

Transfers during the current year were used to move Interest and Sinking Fund tax receipts to the Utility Fund to service a portion of the City's long-term debt as well as reclassifying a portion prior year interfund receivables and payables that were not expected to be paid back as operating transfers.

NOTE 10 – LONG-TERM LIABILITIES

Advanced Refunding

The City issued \$2,110,000 in General Obligation Refunding Bonds, Series 2020 with interest rates fixed at 1.70%. The proceeds were used to advance refund \$2,015,000 of outstanding General Obligation Refunding Bonds, Series 2012 which had interest rates ranging from 2.00% - 4.25%. The net proceeds of \$2,054,486 (after payment of \$55,514 in underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment of the refunded bonds. As a result, the General Obligation Refunding Bonds, Series 2012 are considered defeased and the liability for those notes have been removed from the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$39,486. This amount is being shown as a deferred outflow of resources and amortized over the remaining life of the refunding debt. The City advanced refunded the General Obligation Bonds, Series 2012 to reduce its total debt service payments over fourteen years by \$445,017 and to obtain an economic gain (difference between the present values of the debt service payments of the old and new debt) of \$300,866.

Notes Payable

On March 15, 2022 the City re-financed the purchase of land in the Utility Fund by taking out Note Payable #36393 through a financial institution. The entire principal balance plus accrued interest is due on April 1, 2023. The interest rate is 2.95% and the debt is collateralized by the purchased property.

On August 5, 2022 the City re-financed well repairs for two water wells by taking out Note Payable #36425 through a financial institution. The entire principal balance plus accrued interest is due on August 15, 2023. The interest rate is 3.80% and the debt is collateralized by a security agreement signed by the City.

The City paid interest expense in the amount of \$48 in the Governmental Activities and \$41,409 in the Business-Type Activities during the fiscal year ended September 30, 2022.

CITY OF STRATFORD, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2022

NOTE 11 – RISK MANAGEMENT

The City's major areas of risk management are: public officials', law enforcement, and automobile liability, general comprehensive liability and property damage, workers' compensation, and employee health insurance. The City has obtained insurance with an insurance company and a public entity risk pool in which all risk is transferred to those entities for all the above areas. The City pays a deductible per incident except on the employee health insurance in which the deductible is the responsibility of the employee. There have been no significant reductions in insurance coverage from the prior year and settlements have not exceeded insurance coverage for the current year or the previous three years.

NOTE 12 – PRIOR PERIOD ADJUSTMENT

The prior period net assets were reduced due to the implementation of GASB Statement 87 – *Leases*. The statement requires the recording of long-term right to use assets, "leased equipment" and the corresponding long-term obligation of the leases on the Statement of Net Position.

	<u>Governmental Activities</u>
Net book value of leased equipment at October 1, 2021	\$ 11,810
Carrying value of capital lease liability for leased equipment at October 1, 2021	<u>(12,232)</u>
Prior period adjustment - government-wide statement of activities	<u><u>\$ (422)</u></u>

2022	66,266	73,637	(7,371)	779,896	9.4%

NOTES TO SCHEDULE OF CONTRIBUTIONS

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	N/a
Asset Valuation Method	17 Year smoothed market; 12% soft corridor
Inflation	2.50%
Salary increases	3.50% - 11.50% including inflation
Investment rate of return	6.75%
Retirement age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 - 2018.
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.

Other Information:

Notes: There were no benefit changes during the year.

CITY OF STRATFORD, TEXAS
TEXAS MUNICIPAL RETIREMENT SYSTEM
NOTES TO SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY

Valuation Timing	For the employer's financial reporting purposes, the total OPEB liability and OPEB expense should be measured as of the employer's "measurement date" which may not be earlier than the employer's prior fiscal year-end date and no later than the end of the employer's current fiscal year, consistently applied from period to period. If the actuarial valuation used to determine the total OPEB liability is not calculated as of the measurement date, the total OPEB liability is required to be rolled forward from the actuarial valuation date to the measurement date. The total OPEB liability shown in this report is based on an actuarial valuation performed as of December 31, 2019 and a measurement date as of December 31, 2019; as such, no roll-forward is required.
Inflation	2.50%
Salary increases	3.50% to 11.50% including inflation
Discount rate*	2.75%
Retiree's share of benefit-related costs	-
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality rates - service retirees	2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale of UMP.
Mortality rates - disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with 4 year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

*The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2021.

The SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75, paragraph 4b, (i.e., no assets are accumulated for OPEB). As such the SDBF is considered to be a single-employer unfunded OPEB plan (and not a cost sharing plan) with benefit payments treated as being equal to employer's yearly contributions for retirees.

OTHER SUPPLEMENTARY INFORMATION

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

The Special Revenue Funds account for the proceeds of specific sources that are legally restricted to expenditures for specified purposes.

Technology – The Technology Fund accounts for money charged to a defendant convicted of a misdemeanor in the municipal court. It is designated for the purpose of financing the purchase and maintenance of technological enhancements for the municipal court.

Police Special – The Police Special Fund accounts for revenue from fees collected by the Police department from requests for copies of filed reports. The fees are committed by the City Council to supplement the operating budget of the Police Department.

Narcotics – The Narcotics Fund accounts for revenue from seizure of narcotics within city limits. The revenues are dedicated to be spent on programs and equipment for the enforcement of drug laws.

Cemetery – The Cemetery Fund accounts for revenue from the sale of funeral plots and fees collected by the City on the process of opening and closing those funeral plots. The fund also accounts for donations made to the City for the upkeep and maintenance of the cemetery memorial. The donations are the only funds that are restricted as to use; the revenue from sales and fees may be expended for any purpose the City deems necessary.

Hotel Occupancy Tax – The Hotel Occupancy Tax Fund accounts for the 3% tax on hotel revenues within city limits that the City is authorized by statute to charge. The funds are dedicated by law to be spent to promote tourism to the City.

DEBT SERVICE FUND

The Debt Service Fund accounts for the accumulation and disbursement of resources associated with the City's debt obligations. Property taxes and interest income provide the resources necessary to pay the annual principal and interest payments.
