

Most Golf Courses Are:

- Providing an **inconvenient on-course** eating experience
- Selling a **higher number of beverages** than meals on-course
- **Wasting money** by repeatedly purchasing disposable packaging

Nearly 70% of rounds are played with a golf cart, making this a **serious risk**

- Contributing to the **28.1%** of total municipal waste Containers/packaging make up
- Producing **~46.1 tonnes/year** of waste
- Serving on-course food in **low quality, unsustainable, disposable** containers

The Green Holder:

- Conveniently fits into the integrated golf/push cart ball holder
- Limits disgusting waste
- Promotes your golf club with stylish, custom engraving

- Machine washable
- Made of a sustainable, food-safe PLA polymer
- Flexibly priced
- Can nearly eliminate repeated costs of disposable packaging
- Will raise food sales
