## What Our Listeners Are Saying About the Show...

### Top pick for Driving Entertainment

This is a great pod hands down. The banter between the hosts accommodates the guest in a way where you understand the overall message. Their personalities on these episodes make me wonder what all the comics are truly like on stage.

### Like hanging with buddies

Solid podcast that feels like hanging with friends who know interesting and funny people. If you're a fan of comedians, or comedy podcasts definitely give this a listen. They have really interesting guests who aren't your typical A listers, so it's great to hear new stories in the entertainment world!

# THE HOST

The Gregalicious prides himself on being one of the only people in the world who knows how much "stuff" an Oreo actually contains. Bouyant & eccentric self-made thousandaire, this DJ claims to have been raised by wolves in the woods of Saddle River, New Jersey and dares anyone to prove it isn't true.
