SUMMARY

I am a passionate and adventurous angler making significant strides in the kayak tournament fishing scene over the past two years. My enthusiasm for fishing extends beyond the thrill of the catch; I am dedicated to sharing my love for the sport, actively engaging with the fishing community, and continuously learning and growing with aspirations of advancing through the ranks. With a background as a former sign company owner and graphic designer, I bring a keen understanding of brand recognition and the strategic use of social media marketing to the table.
