## In The Works

We are delighted to welcome Avril Anderson and David Sutton-Anderson to our family of artists. Avril and David are two distinguished composers and champions of new music, both based in London.

We will be releasing selected organ works by both over the next few months, including Avril's dramatic concert works and David's ongoing series of Voluntaries: short, practical works for the liturgical organist. Please visit their pages on our website for more information!

We will also continue to release new works by Italian composer Luca Massaglia over the next few months: we love how dramatic and characterful his music is.

Also coming soon - another annual Prelude from Huw Morgan and a manualiter Passacaglia from Frederick Frahm.

## BLOG

We've got two new blog articles added to the library!

Read about Huw Morgan's Haven. This evocative piece has been around now for about ten years and remains one of the composer's most performed works worldwide. The article considers the work from the composer's perspective. Also included, THREE different performances of the music by Michael Bonaventure, Migumi Hayama, and Neil Thornock (his arrangement for carillon).

Luiz Henrique Yudo's work PRÉMESURÉ is analyzed by Huw Morgan. This score, in graphic notation, which shows off the composer's wonderful draughtsmanship, is both exquisite and witty. It also requires the performer to make decisions not just about duration and rhythm, but also, within set parameters, about pitch and structure. Careful thought is required! [Learn more!](#)
