1966 CESSNA STATIONAIR U206 A-G

SINGLE ENGINE VREF COMPLEX SINGLE INDEX

The **Cessna 205, 206,** and **207**, known primarily as the **Stationair** (and marketed variously as the **Super Skywagon, Skywagon** and **Super Skylane**) are a family of single-engined, general aviation aircraft with fixed landing gear, used in commercial air service and also for personal use. The family was originally developed from the popular retractable-gear Cessna 210 and produced by the Cessna Aircraft Company.

The line's combination of a powerful engine, rugged construction, and a large cabin has made these aircraft popular bush planes. Cessna describes the 206 as "the sport-utility vehicle of the air." These airplanes are also used for aerial photography, skydiving, and other utility purposes. They can also be equipped with floats, amphibious floats, and skis. Alternatively, they can be fitted with luxury appointments for use as personal air transport.

Airframe Time (AFTT) / Engine Time

ITEM	VALUE
Registration #	N4941F
Serial #	u206-0641
Airframe Total Time (AFTT)	3604
AFTT Avg	7665.02
Since Major Overhaul (SMOH)	
SMOH Engine 1 - Continental IO-520-F	503.00
TBO Avg	850.0
