#### About A Place for Mom

A Place for Mom, Inc. is a nationwide information service about senior living options including independent living, home care agencies, adult family homes, assisted living facilities and nursing homes. Our role is to provide information and options that meet a loved one's stated needs and preferences. A Place for Mom, Inc. has assisted nearly 800,000 families in finding care and housing for their loved ones since it began in 2000.

Communities or agencies may be included in our service if they are appropriately licensed by the state in which they operate. If a participating community or agency informs A Place for Mom, Inc. that it has lost its license, for any reason, or if A Place for Mom, Inc. has received complaints of significant dissatisfaction by consumers which are documented and can be proved, the community or agency will be excluded from the A Place for Mom, Inc. information service. A Place for Mom, Inc. does not own or operate any of the communities or agencies to which it refers.

In order to provide the information service to consumers at no charge, participating communities or agencies pay a fee to A Place for Mom, Inc. Information about communities or agencies is provided for each family based on the clinical, financial and geographic needs and preferences stated by the family or client. A Place for Mom does not endorse or recommend any community or agency as we believe it is the consumer's sole responsibility to select the appropriate care for a loved one or for oneself. The communities or agencies which are provided are options to assist in finding the right care or housing. Families are encouraged to tour and ask questions of each community or agency to ensure they select the community or agency that best meets their needs. A list of questions to assist you in the selection process is available from A Place for Mom, Inc.
