

HALO

SWITCH OFF THE WASTE.

BLACK IS
NOT OFF.

INTELLIGENT POWER CONTROL
FOR STADIUM LED SYSTEMS

THE PROBLEM

THE SCREEN IS BLACK. THE METER IS STILL RUNNING.

02

HOURS OF INACTIVITY

Most LED systems are inactive for the vast majority of the year.

CONTINUOUS CONSUMPTION

Power is used even when the screen is black.

COST YOU DON'T SEE

Wasted energy.
Unnecessary cost.
Missed opportunity.

THE OPPORTUNITY

WHY POWER IT WHEN YOU'RE NOT USING IT?

HALO gives you
intelligent control
of your LED system.

Save energy.
Cut costs.
Reduce carbon.

Smarter venues
run leaner.
Stronger bottom line.

Better for your budget.
Better for the planet.
Better for your club.

THE HALO SOLUTION

ONE BUTTON. WHOLE-SYSTEM CONTROL.

HALO

SWITCH OFF THE WASTE.

POWER DOWN
WHEN INACTIVE

REMOTE

MONITORING

HOW HALO WORKS

01 SURVEY

We assess your LED system, operations and power usage.

02 DESIGN

We design a tailored control solution using proven technology.

03 INSTALL

Professionally installed with minimal disruption.

04 CONFIGURE

System configured for your operational requirements.

05 COMMISSION

Tested, optimised and handed over with full training.

WHY HALO

REDUCE WASTE

Eliminate unnecessary energy consumption from inactive screens.

REDUCE COST

Lower energy bills and operational expenditure.

SIMPLIFY CONTROL

Intuitive control at your fingertips.
Local or remote.

USE EXISTING INFRASTRUCTURE

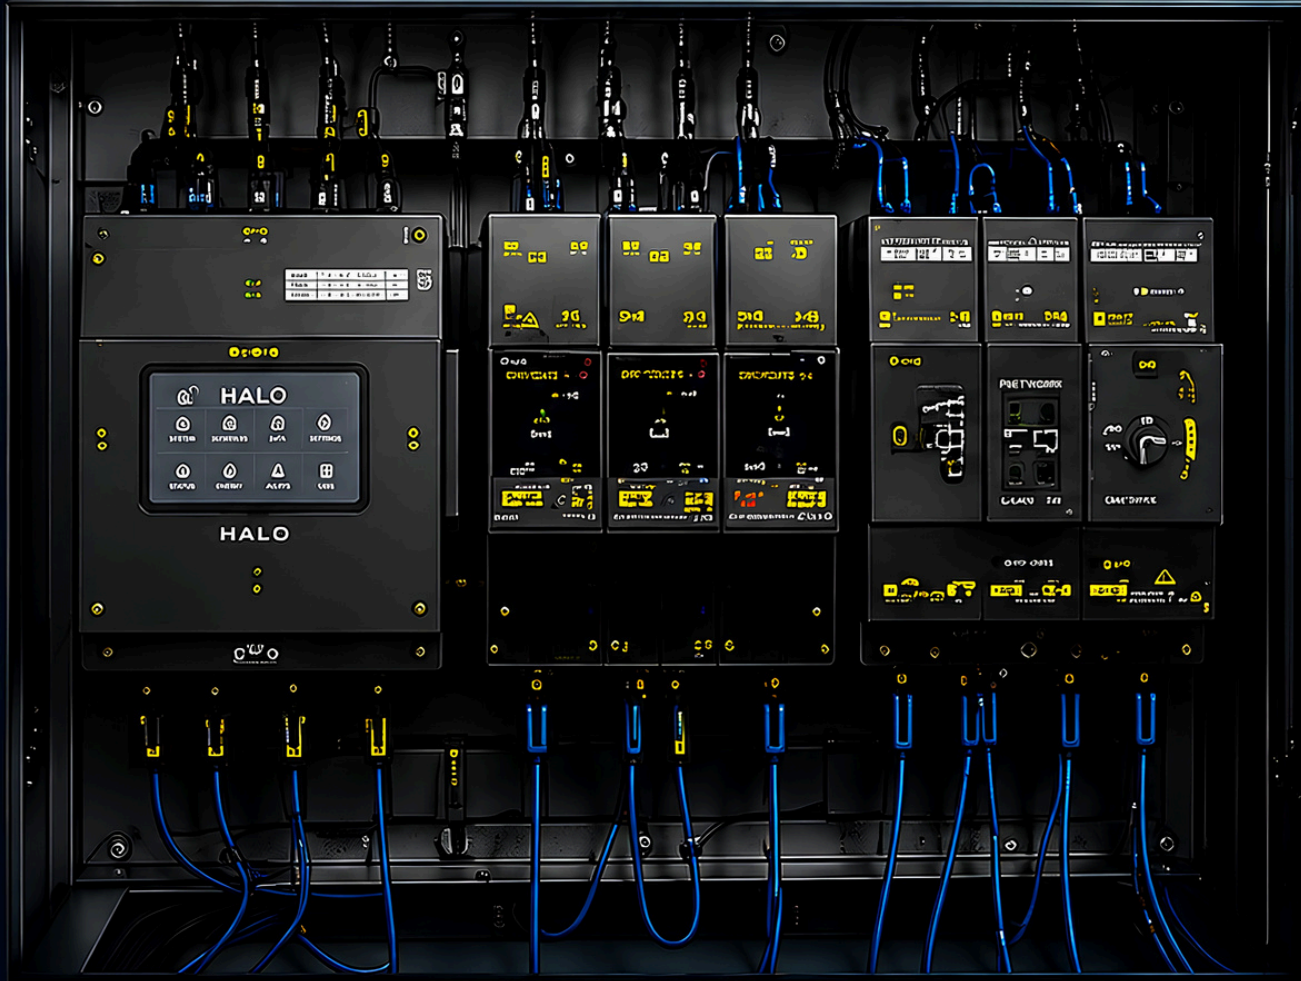

Utilises proven Dynalite/ DyNet technology.

SUPPORT SUSTAINABILITY

Reduce carbon footprint and demonstrate environmental responsibility.

ENGINEERED FOR PROFESSIONAL VENUES

- ✓ **PROFESSIONALLY INSTALLED**
To the highest electrical standards.
- ✓ **NETWORKED ARCHITECTURE**
Reliable, scalable and secure.
- ✓ **INTELLIGENT RELAY CONTROL**
Energy-efficient switching of final circuits.
- ✓ **TOUCHSCREEN INTERFACE**
Simple, clear, and intuitive.
- ✓ **REMOTE ACCESS**
Secure web control from anywhere.
- ✓ **COMMISSIONED & SUPPORTED**
End-to-end delivery with ongoing support.

WHAT ARE YOUR BLACK SCREENS COSTING YOU?

BOOK A HALO LED ENERGY REVIEW.

We review your existing installation, operating patterns and electrical consumption to identify your opportunity.

SITE REVIEW

Understand your system and usage.

DATA ANALYSIS

Measure, analyse and quantify potential.

OPPORTUNITY REPORT

Clear findings. Clear opportunity.

RECOMMENDATIONS

Practical solutions. Measurable impact.

**REDUCE WASTE. REDUCE COST. TAKE CONTROL.
LET HALO SHOW YOU HOW.**

THE HALO LOGO

The O in HALO represents control, focus and a complete circuit.

The halo effect signifies energy, intelligence and impact.

THE HALO

Control.
Focus.
Complete circuit.

THE POWER

Switch off waste.
Take control.

THE ENERGY

Intelligent usage.
Sustainable future.

THE IMPACT

Measurable savings.
Visible results.
