

Mr. Vincent J. Lucarelli has been a Registered Architect for over 30 years. He is married with two children, and lives in Greenlawn, NY. Mr. Lucarelli has a broad background, and is highly skilled in interacting with a variety of clients, consultants, and tradesmen. His Architectural firm specializes in Schematic Design, Design Development, and Construction Document Services for residential and commercial projects.

The firm's primary area of focus is residential, retail, office and commercial interiors and medical office design. Schematic services include zoning studies, site analyses, space programming, preliminary site planning, building planning, and elevation studies. Project budgeting services are provided within the parameters of the schematic phases.

The firm also provides full Construction Documents upon client approval of the Design Development plans, which are signed and sealed including all required floor plans, elevations, sections and details necessary for submission to the building authorities and final construction.

Mr. Lucarelli's firm offers Owner's representation and coordination of pre-construction services and related consultants, including expediting of building permits.
