

The Team

Chris Niemoeller, M.A., 25 years in business and business administration, over 25 years in education as an elementary, middle school, and college instructor, a PreK-12 curriculum administrator, a professional development coordinator, a literacy coach, and a curriculum consultant

Lyn Asta, B.S., over 25 years of elementary and secondary teaching experience, including administrative experience

Linda Combs, veteran math instructor, including 25+ years teaching geometry

Steven Skaggs, finishing fellowship and master's degree at UMSL for teaching secondary level science and math

Delores Cook, experienced in special & regular education and substitute teaching at all levels.

Polly Winkelmann, veteran teacher in special education for elementary and middle school levels.

"Would you recommend Education Station?"

I cannot thank you enough for your comments on my essays. I've asked for feedback from numerous family and friends, and yours was by far the most in depth and helpful. I really appreciate your time and skill. After incorporating your comments, my essays improved so much!

(Vicki S, MBA Applicant)

Yes, most definitely. Our school district and community are lucky to have the Education Station. My daughter really liked and enjoyed her time with (Coach).

(Learning Line, Gr. 5 Parent)

Yes, I would recommend you to others. Education Station is a place that provides a professional background of teaching that would be perfect for any child that needs help. Keep doing what you're doing, outstanding teaching.

(ACT Prep, St. Francis Borgia Senior)

Absolutely! I would very much so recommend you to others and I also already have been! My experience was truly helpful. (The Coach) helped me very much and made it easy for me to understand.

(Learning Line, PHS Junior)

The Learning Line

Personal Academic Coach

The Learning Line provides support for K-12+ academic skills in all content areas. Whether targeted skill development is needed in a specific subject such as math or language arts, or homework assistance is needed for specific topics or concepts, individual learning goals are determined and the length of programs are arranged for one-to-one coaching sessions.

Coaches are certified teachers with extensive experience.

Progress reports are provided at regular intervals.

Sessions are designed to fit today's busy schedules.

Creative Crossing

For Inquiring Minds

Creative Crossing is a K-12 program to explore areas of interest, expand innovative thinking, and develop advanced knowledge and skills through an individual or collaborative approach.

Projects incorporates skills that have been deemed essential for the 21st century: communication, critical thinking, questioning, problem-solving, and independent learning through real world topics.

The journey of discovery and creativity may include links to community members, university staff, or field experts as mentor resources.
