

### Christianna Niemoeller

B.A. (Fontbonne University)  
M.A.T. (Webster University)  
K-12 Gifted (Lindenwood University)

After 25 years in business, I worked another 25 years in education: teaching at the elementary, middle school, and college levels; as a PreK-12 curriculum director, a professional development coordinator for 500 teachers and 400 non-certified staff; as a curriculum writing consultant; and as a literacy coach for other teachers.

### “Would you recommend Education Station?”

I cannot thank you enough for your comments on my essays. I've asked for feedback from numerous family and friends, and yours was by far the most in depth and helpful. I really appreciate your time and skill. After incorporating your comments, my essays improved so much!

(Vicki S, MBA Applicant, 2018)

*Yes, most definitely. Our school district and community are lucky to have the Education Station. My daughter really liked and enjoyed her time with (Coach).*

(Learning Line, Gr. 5 Parent)

*Yes, I would recommend you to others. Education Station is a place that provides a professional background of teaching that would be perfect for any child that needs help. Keep doing what you're doing, outstanding teaching.*

(ACT Prep, St. Francis Borgia Senior)

*Absolutely! I would very much so recommend you to others and I also already have been! My experience was truly helpful. (The Coach) helped me very much and made it easy for me to understand.*

(Learning Line, PHS Junior)

## The Learning Line

### *Personal Academic Coach*

The Learning Line provides support for K-12 academic skills in all content areas. Whether targeted skill development is needed in a specific subject such as language arts or math, or homework assistance is needed for specific concepts or projects, individual learning goals are determined and the length of programs are arranged. Typically meetings are for one-to-one video conferencing coaching sessions; however, students who desire working together may be able to arrange joint meetings even if learning goals and/or support needed varies. Progress reports are provided at regular intervals.

Sessions will be designed to fit today's school schedules for in-person, distance, or a hybrid of these learning programs.

## Creative Crossing

### *For Inquiring Minds*

Creative Crossing is a K-12 program to explore areas of interest, expand innovative thinking, and develop advanced knowledge and skills through an individual or collaborative approach.

Projects incorporate skills that have been deemed essential for the 21<sup>st</sup> century: communication, critical thinking, questioning, problem-solving, and independent learning through real world topics.

The journey of discovery and creativity may include links to community members, university staff, or field experts as mentor resources.

## Business Management, Finance, & Support Skills
