"Would you recommend Education Station?"

I cannot thank you enough for your comments on my essays. I've asked for feedback from numerous family and friends, and yours was by far the most in depth and helpful. I really appreciate your time and skill. After incorporating your comments, my essays improved so much!

(Vicki S, MBA Applicant, 2018)

Yes, most definitely. Our school district and community are lucky to have the Education Station. My daughter really liked and enjoyed her time with (Coach).

(Learning Line, Gr. 5 Parent)

Yes, I would recommend you to others. Education Station is a place that provides a professional background of teaching that would be perfect for any child that needs help. Keep doing what you're doing, outstanding teaching.

(ACT Prep, St. Francis Borgia Senior)

Absolutely! I would very much so recommend you to others and I also already have been! My experience was truly helpful. (The Coach) helped me very much and made it easy for me to understand.

(Learning Line, PHS Junior)

Study/Organization Skills

Computer Basics & Software

Business Skills Workshops

Visit www.edu-station.org for enrollment forms and more information.

The Learning Line

Personal Academic Coach

The Learning Line provides support for K-12+ academic skills in all content areas. Whether targeted skill development is needed in a specific subject such as language arts or math, or homework assistance is needed for specific topics or concepts, individual learning goals are determined and the length of programs are arranged for one-to-one video conferencing coaching sessions.

Coaches are certified teachers with extensive experience.

Progress reports are provided at regular intervals.

Sessions are designed to fit today's busy schedules.

Creative Crossing

For Inquiring Minds

Creative Crossing is a K-12 program to explore areas of interest, expand innovative thinking, and develop advanced knowledge and skills through an individual or collaborative approach.

Projects incorporate skills that have been deemed essential for the 21st century: communication, critical thinking, questioning, problem-solving, and independent learning through real world topics.

The journey of discovery and creativity may include links to community members, university staff, or field experts as mentor resources.
