September 2021

General Manager's Comments

September is memorable for many things, not the least of which is the change of seasons triggered by Planet Earth's journey around our solar system's largest star. In terms of its luminosity, The Sun puts out approximately 4,000,000 tons of energy per second, of which only 4.5 pounds per second is received by Planet Earth when calculated by its curvature. The Autumnal Equinox occurs on or around September 22nd annually. Lucky for us, some of the best weather of the year comes in September and the four weeks thereafter. Also Lucky for us, California was discovered by Portuguese navigator Juan Rodriguez Cabrillo, who claimed this fair land for Spain in 1542. The California Gold Rush of the late 1840's enshrined the ethos of this place, and its value to the rest of the country, and in 1850 the California Republic joined the Union. The rest is history, it is said. What we also know, is that Park Newport is committed to the enjoyment of life in the world's most perfect climate. Please join us in utilizing our iconic Main Pool and Spa areas, fitness centers, outdoor cardio studio, Tennis Courts, basketball, sand volleyball, and racquetball courts, for starters. Please remember Aerobics and yoga, as well as hours of fun with your little ones at the Playground. You'll want to shop in our gourmet market, drop your dry cleaning and laundry off at Park Newport Cleaners and visit our Salon for a blowout, classic styling, or just a trim.
