

A Women's Leadership Circle: Leading from Within

October 27, 2026

10 am - 4pm

Minneapolis, MN

You are warmly invited to the Women's Leadership Learning Circle – an intentional space where women cultivate the confidence, clarity, and courage to lead authentically—in their work, relationships, communities, and lives. Together we gather to access our power, deepen our presence, and practice leadership that feels aligned with our values and who we truly are becoming. If you are a woman—or identify as a woman—seeking connection, clarity, and a community where your voice matters... this circle might be calling you.

Why This Circle Matters Now

Many women are carrying immense responsibility—leading teams, supporting families, navigating change, and holding space for others. Amid these demands, it's easy to lose connection with our own voice, wisdom, and sense of possibility. This circle offers a rare opportunity to pause, reflect, and reconnect with the leader you want to be.

In a time of constant distraction, pressure, and overwhelm this circle offers space to slow down, listen inward, and strengthen the skills that help you lead with grounded confidence. Spend dedicated time with a circle of supportive women who are committed to elevating themselves and one another.

This is for you if you're ready to strengthen skills and explore:

- ✓ Trust-building and relational intelligence
- ✓ Confident, impactful communication
- ✓ Influence and decision-making
- ✓ Grounding in times of uncertainty
- ✓ Boundaries as a leadership practice

“You’ve helped me tap into a sense of possibility and purpose. Thank you for letting me borrow your belief in me until I believed it myself.”
