You will notice two distinct sets of time measurements that of counts of days and a month and day. Many times when a counts of tags and a month and day, waify times when a person is recording an event he may say '45 days ago we began the series." Then he might say, 'On May I stee won the championship' Let us overlay the dates that are recorded on a calendar and see how they fall. Then let's look at the account again by 30 day months and you will see the point.
