

REGREEN THE RANGE MONITORING OF 2001 WORKS

Date of count	Site	NFC = north facing slope SFC = south WFS = west.....		Scrapes with plants	Timing	Spray method	Contractor	plants/ha est. (inc seedlings)	Notes
		Sample location	Contractor						
24/10/01	Adairs	Eastern side		90.7%	late Aug		Koora	753	
25/10/01	Adairs	Saddle SFS		58.3%	late Aug		Koora	592	slugs & white snails present + aphids
26/10/01	Adairs	Western side SFS		46.7%	late Aug		Koora	383	roos doing damage to C seedlings + slugs & snails
27/10/01	Adairs	Saddle NFS		30.0%	late Aug		Koora	350	roos doing damage to C seedlings + slugs & snails
28/10/01	Adairs	Woodlots		92.0%	late Aug		Koora	1012	roo damage minimal at this stage
9/10/01	Clappis Gully			30.0%	mid Aug		CC	270	wet
1/11/01	Dridan	Sth SFS		86.1%	early Sept		GA	775	
1/11/01	Dridan	Sth NFS		90.1%	mid Aug		GA	811	still germinating
1/11/01	Dridan	Nth NFS		66.7%	mid Sept		GA	600	still germinating
17/10/01	Payne			28.0%	late Aug		Koora	252	1 wattle seen
17/10/01	Brown	South NFS		52.0%	early Aug		Yacca EC	416	slugs & white snails present, survivors "chewed"
17/10/01	Brown	Central SFS		63.4%	early Aug		Yacca EC	507	as above (no seedlings used due to roos)
17/10/01	Brown	Central NFS(a)		72.7%	mid Aug		Yacca EC	582	as above (no seedlings used due to roos)
17/10/01	Brown	Central NFS(b)		40.0%	mid Aug		Yacca EC	320	as above (no seedlings used due to roos)
17/10/01	Brown	North mainly NFS		16.7%	mid Aug		Matt	133	as above + corpses of black beetles (no seedlings used due to roos)
17/10/01	Brown	Woodlots		90.0%	late Aug		Koora	990	still some roos present (mob of 9 outback despite sustained shooting)
17/10/01	Cheesley	Top		50.0%	early Aug		Yacca EC	550	slugs & white snails present, survivors "chewed". Most seedlings OK
17/10/01	Cheesley	SFS		25.0%	late July		Yacca EC	425	slugs & white snails present, survivors "chewed". Most seedlings OK
30/10/01	Inglis	all		70.0%	late Sept		Beed	630	still germinating - slug bait laid 30/10/01
20/11/01	Shahin	South - various NFS		51.9%	early July		Matt	560	weed control worn off in wetter/higher areaspatchy - some roo damage (no roos seen) + late germination
20/11/01	Shahin	South - WFS		66.7%	early July		Matt	633	weed control worn off in wetter/higher areaspatchy - some roo damage (no roos seen) + late germination
20/11/01	Shahin	South - various NFS		29.0%	early July		Koora	445	weed control worn off in wetter/higher areaspatchy - some roo damage (no roos seen) + late germination
20/11/01	Shahin	South - WFS		75.0%	early July		Koora	675	weed control worn off in wetter/higher areaspatchy - some roo damage (no roos seen) + late germination

REGREEN THE RANGE MONITORING OF 2001 WORKS

Date of count	Site	NFC = north facing slope SFC = south WFS = west.....			Scrapes with plants	Timing	Spray method	Contractor	plants/ha est. (inc seedlings)	Notes
		Sample location								
20/11/01	Shahin	South	various	NFS	70.0%	early July	Koora	650	weed control worn off in wetter/higher areas patchy - some roo damage (no roos seen) + late germination better where snail bait used. Extra sheoaks planted. Mice using scrapes for burrows patchy - poor Myrtaceae	
20/11/01	Shahin	South	various	SFS	37.4%	early July	Koora	537		
20/11/01	Shahin	OCWMB	- south		50.0%	early July	Brame	500		
20/11/01	Shahin	narrow spur	- NFS east		49.2%	early-mid July	Matt	546	weed control worn off in wetter/higher areas patchy - some roo damage (no roos seen) + late germination	
20/11/01	Shahin	narrow spur	- NFS mid		75.9%	early July	Matt	679		
17/10/01	Shahin	narrow spur	- WFS		91.7%	late July	Matt	758	weed control worn off in wetter/higher areas patchy - some roo damage (no roos seen) + late germination	
20/11/01	Shahin	narrow spur	- SFS east		41.7%	early July	Matt	508	weed control worn off in wetter/higher areas patchy - some roo damage (no roos seen) + late germination	
20/11/01	Shahin	narrow spur	- SFS mid		40.4%	early July	Koora	502	weed control worn off in wetter/higher areas patchy - some roo damage (no roos seen) + late germination	
20/11/01	Shahin	wide spur	- WFS		65.0%	mid Aug	Koora	625	roos present but most seedlings OK	
20/11/01	Shahin	wide spur	- NFS mid		72.4%	late July	Koora	662	roos present but most seedlings OK	
20/11/01	Shahin	wide spur	- NFS		20.0%	early Aug	Koora	360	roo damage worse, w/c OK	
20/11/01	Shahin	wide spur	- NFS east		63.6%	early Aug	Koora	618	weed control worn off in wetter/higher areas patchy - some roo damage (no roos seen) + late germination	
20/11/01	Shahin	wide spur	- SFS		22.0%	early Aug	Koora	372	roo damage worse, w/c poor	
17/10/01	Shahin	wide spur	- SFS east		46.2%	early Aug	CC	369	no seedlings around bluff	
20/11/01	Shahin	wide spur	- SFS mid		63.3%	early Aug	Koora	617		
17/10/01	Shahin	OCWMB	- west		28.0%	July-Aug	Brame	280	mainly wattles! Later stuff better	
20/11/01	Shahin	Cawood Ridge	- SFS - east		68.3%	late Aug	Koora	692		
20/11/01	Shahin	Cawood Ridge	- SFS - mid		86.2%	late Aug	Koora	761		
20/11/01	Shahin	Cawood Ridge	- NFS - mid		81.4%	late Aug	Koora	737		
20/11/01	Shahin	Cawood Ridge	- NFS - east		56.8%	late Aug	Koora	614		
20/11/01	Shahin	North ridge	(chopper) - SFS east		39.1%	late Aug	Koora	565		
20/11/01	Shahin	North ridge	(chopper) - SFS mid		27.2%	late Aug	Koora	493	roo damage 20%	
20/11/01	Shahin	North ridge	(chopper) - NFS mid		53.2%	late Aug	Koora	649		
20/11/01	Shahin	North ridge	(chopper) - NFS east		27.9%	late Aug	Koora	498		
20/11/01	Shahin	Average to date			53.5%			568		

REGREEN THE RANGE MONITORING OF 2001 WORKS

Date of count	Site	Sample location		Scrapes with plants	Timing	Spray method	Contractor	plants/ha est. (inc seedlings)	Notes
		NFC = north facing slope SFC = south WFS = west.....							
15/11/01	Screenings	Section 1 (south end)		25.5%	early July		Koora	327	Scabiosa & other weeds bad + RLEM, slugs & snails present earlier. Heavy roo damage + 2 areas of rabbits
16/11/01	Screenings	Section 1 (north end)		47.2%	early July		Koora	436	Scabiosa & other weeds bad + RLEM, slugs & snails present earlier. Heavy roo damage + 2 areas of rabbits
17/10/01	Screenings	Section 2 - 50m strip on OSH Rd		62.5%	late Aug		Koora	713	slugs & snails present, Seedlings OK (thickened up with leftover seedlings)
9/11/01	Screenings	Section 2 - Top		63.2%	late June		Koora	666	patchy results, later seeding & patchup doing better (early Sept), extra sheoaks planted
9/11/01	Screenings	Section 2 - Nth site on OSH rd		52.7%	early July		Koora	564	hare/roo/rabbit damage, extra sheoaks planted
9/11/01	Screenings	Section 2 - NFS		63.1%	early - late July		Koora	666	patchy results, later seeding, extra sheoaks planted
9/11/01	Screenings	Section 2 - N/S ridge		45.8%	early - late July		Koora	579	patchy results, later seeding, extra sheoaks planted
9/11/01	Screenings	Section 3 - NFS		86.7%	late July/early Aug		Koora	703	roo damage 10%
9/11/01	Screenings	Section 3 - WFS		91.3%	mid/late Aug		Koora	727	roo damage 10%
9/11/01	Screenings	Section 3 - SFS		60.1%	late Aug		Koora/Matt	600	no roos
20/11/01	Screenings	Section 4 - SFS		54.0%	mid Aug		Koora	510	heavy roo damage to seedlings
20/11/01	Screenings	Section 4 - NFS		77.8%	mid Aug		Koora	629	heavy roo damage to seedlings
	Screenings	Average to date		60.8%				593	
13/11/01	Sturm	NFS		74.1%	Sept		CC	667	still germinating, esp later stuff
13/11/01	Sturm	SFS		88.9%	Sept		CC	800	still germinating, esp later stuff
13/11/01	Sturm	Woodlots		90.0%	Sept		Koora	990	roos still present but reducing rapidly due to shooting & fence fix. Guards OK, odd ones being pulled out & appear to be constricting some
13/11/01	Tapfield	NE site - SFS		77.5%	Mid-late Aug		Corr. Serv	698	slugs present dormant under weeds, poor technique common
13/11/01	Tapfield	NE site - NWFS		88.5%	Mid-late Aug		Corr. Serv	796	poor technique common
13/11/01	Tapfield	NE site - NFS		75.0%	late Aug		Corr. Serv	675	roo tramping v bad in gully & on edges
13/11/01	Tapfield	Central site - NFS		33.3%	mid Sept		Corr. Serv	300	still germ, but cow & roo trampling bad
13/11/01	Tapfield	Central site - SFS		66.7%	early Sept		CC	600	still germ, slugs (now dormant)
13/11/01	Tapfield	W sites - NFS		95.8%	early Sept		CC	863	still germ, slugs (now dormant)
13/11/01	Tapfield	W sites - NFS		69.2%	early Sept		CC	623	still germ, slugs (now dormant)
13/11/01	Tapfield	Woodlots Nth site		5.0%	mid Aug(1)- late Sept(2)		Matt (1) Corr. Serv(2)	55	roo decimation - replanted once 17 roos still present on this ridge, despite shooting
