

TRAUMA/BRAIN 101 ONLINE

This course will provide participants with foundational knowledge about child trauma, child traumatic stress, and the impact of trauma on brain development.

Participants will learn about:

- The effects of complex trauma and toxic stress
- Brain architecture and brain development in children and youth impacted by complex trauma and toxic stress
- Adverse Childhood Experiences
- Strategies for well-being and resilience in children affected by trauma.

ABOUT US:

These classes are provided by the Professional Excellence Child Welfare Training Collaborative (CWTC). The CWTC is a partnership between the Georgia Division of Family and Children Services and Georgia State University's Andrew Young School of Policy Studies School of Social Work Professional Excellence Program. We have provided high-quality training on trauma and brain development to over 10,000 stakeholders across the state of Georgia since 2016.
