# DIRECT COLOR SOLUTIONS

Introducing our latest flat bed, direct-to-substrate printer line. In the most economical size yet from Direct Color Systems™, the Direct Jet 1309 offers unlimited customization at amazing speeds. The print head and capping station in the Direct Jet 1309 are solvent resistant. The print head also has an ink repelling coating to ensure consistent, reliable printing. The Direct Jet 1309 comes with additional ink options including the brightest white yet offered in the Direct Jet line. Our Multisolve inks continue to provide vibrant, full color imaging in a single pass. Seal in added durability with the clear ink option.

The Direct Jet 1309 images directly onto a variety of substrates including tiles, PVC, aluminum, wood, acrylic, crystal, electrical components, CDs, DVDs and more.\*

From ad specialty to industrial, the applications are endless. So is our commitment to continual innovation.

\*Note: All substrates should be tested for image receptivity with final acceptance and suitability determined by customer.

## Direct Jet 1309 features:

- Optimized resolution - up to 5760 dpi
- No pre-coating or undercoating needed
- 8 chamber print head (CMYKWWCICI)
- Complete RIP and print profile options
- White and clear ink options
- 180 nozzles/chamber
- Table size of 13" x 9"
- Substrates up to 2" thick

Calibrated for

**Direct Color Systems™**

"Creating customer profitability through continual innovation"
