ACCU-BLEND HYBRID CANDLE WAX

Accu-Blend Hybrid Candle Wax product line includes:

- ✚ Accu-Soy® #8-CB Hybrid Soy Container Blend
- ✚ Accu-Soy® #9-CB Hybrid Soy Container Blend
- ✚ Accu-Blend Hybrid Coconut Container Blend
- ✚ Accu-Blend Hybrid Palm Container Blend

ACCU-SOY HYBRID SOY CONTAINER BLEND

Accu-Soy Hybrid Soy Container Blend is a combination of soy wax and paraffin wax. It has the excellent color retention, jar adhesion, hot and cold scent throw. It is clean burning. It is blended in order to eliminate frosting of colored candle. It can adhere very well to the glass. It has the benefits of the low shrinkage of soy wax combined with the positive scent retention and burning characteristics of paraffin wax. You will get the clean burn of a natural candle and the great scent throw of a paraffin candle. No additives needed, just melt, add color and scent, and then pour.

ACCU-BLEND HYBRID COCONUT CONTAINER BLEND

Accu-Blend Hybrid Coconut Container Blend is a coconut and paraffin blend wax that is specially formulated for use in container candles. It has the excellent throw of paraffin wax and the slow burn of coconut. It is clean burning. The excellent glass adhesion of this wax makes it ideal for clear and transparent containers. It has a very soft texture with a melt point of 120°F, smooth and opaque appearance, and max 10% fragrance load.

ACCU-BLEND HYBRID PALM CONTAINER BLEND

Accu-Blend Hybrid Palm Container Blend is a palm and paraffin blend wax that is specially formulated for use in container candles. Palm wax is much more viscous than other waxes, and it has different burn properties. Accu-Blend Hybrid Palm Container Blend has the benefits of the excellent throw and burning characteristics of paraffin wax combined with the beautiful glow of palm as the candle burns down and the light from the flame shimmers through the crystal patterns.

Melting Point (°F)	D-87	124
Brookfield Viscosity @190 (°F)	D-445	10 cps
Congearing Point (°F)	D-938	127
Needle Penetration @77 (°F)	D-1321	48 dmm
Color, ASTM	D-1500	L.05
Appearance		Soft, Creamy, Opaque

Out Sanding Features

Accu-Soy #8-CB Hybrid Soy Container Blend has the benefits of the low shrinkage of soy wax combined with the positive scent retention and burning characteristics of paraffin wax. You will get the clean burn of a natural candle and the great scent throw of a paraffin candle. No additives needed, just melt, add color and scent, and then pour.

How to Use

Heat to 160-180 °F degrees, remove from heat source, add fragrance oil and dye, blend and stir while cooling, and then pour at 160 to 180 °F degrees for best results. It is always best to try different temperatures to see what temperature works best for you as there are so many different situations such as glass size, temperature of work area, fragrance percentage, etc..

FDA Status

This product meets USP requirements and FDA requirements for use in non-food articles in contact with food as per 21 CFR 172.880.
