

National Jersey Woolly Club 2025 Golden Fleece Auction

Golden Fleece Auction Rules and Regulations

The rules and regulations for the Golden Fleece auction are meant to improve the overall quality of the Jersey Wooly. The Rules and Regulations are as follows:

- 1.All Jersey Woolies entered into the Golden Fleece auction are to be of good quality and free of any disqualifications. (The brood doe and bred doe may be over the weight limit, but weight must be disclosed before the auction.)**
- 2.All auction animals will be inspected by qualified persons (ARBA Registrar or Judge) prior to the auction. If there is not a Registrar or Judge available, the animals entered into the auction will be inspected by members of the Auction Committee.**
- 3.Any animals found to have a genetic disqualification will not be allowed into the auction and the owners will be notified.**
- 4.Complete and up to date pedigrees are required for each Jersey Wooly in the Auction. The pedigree will be given upon payment.**
- 5.Each Jersey Wooly that is in the auction, will have a special coop tag on their cage designating that the rabbit is entered into the Golden Fleece auction.**
- 6. The owner will receive 50% and the NJWRC will receive 50% of the total sale for the Jersey Wooly, unless the total amount is donated to the Youth Scholarship fund.**
- 7. The NJRWC Treasurer will prepare the checks as soon as possible after convention, and mail the checks to the sellers within a two week time frame.**
- 8. The time for the Auction will be determined and posted by the show committee. The time and date of the auction must be visible for all exhibitors and visitors to see.**

Golden Fleece Auction Day

1. The show committee and the auction committee will work together in getting the auction animals in the show coops for inspection and auction. **PLEASE ONLY ZIPTIE YOUR GFA/TRIO RABBIT'S CAGE ON SUNDAY NIGHT SO THAT WE CAN ACCESS IT FOR DQ INSPECTION ON MONDAY.**
2. The animals will be in the show coops 1 hour and 30 minutes before the auction so that they may be inspected for disqualifications.
3. Once inspected and buyers notified of any issues, the auction animals will be available for inspection by buyers for 30 minutes.
4. The NJWRC is not responsible for injury to potential buyers from sale animals. If the animal demonstrates aggressive behavior, that animal will be dismissed from the auction.
5. The NJWRC is not responsible for injury to sale animals from potential buyers.
6. Each animal will be put into an auction coop with pedigree laying on top.
7. The auction committee will designate the order in which animals are put up to auction.
8. The minimum bid or starting bid for each animal will be \$50.00. If the minimum bid is not met, the animal is considered not sold and returned to coop.
9. You do not need to be present in order to bid. Bids may be placed via phone, or by prearrangement through a third party of your choice. The Auction Committee will not be responsible for taking phone or third party bids during the auction.
10. There will be no interfering with the auctioneer during the auction.
11. Once the auctioneer says, SOLD, that animal is sold to the designated buyer.
12. The buyer that buys the animal at the auctioned price is held responsible to purchase the animal for the final auctioned amount.
13. After completion of the auction, the buyer will proceed to the sales clerk and pay for the animal. Check, cash, or Zeffy is accepted. Checks must be made out to the NJWRC. All transactions will receive a bill of sale and paperwork for checkout.
14. A returned check will incur a \$30 NSF fee. Failure to make good on the NSF check can result in the member being suspended from the NJWRC club.
15. All buyers are responsible for determining transport for animals purchased in the auction.
16. All buyers are responsible for the care of the auction rabbit at the conclusion of the auction.

Note: The Auction Committee is made up of volunteers that want to make the "Golden Fleece Auction" a success. Success can be viewed in many different ways. The ultimate goal of this Committee is to improve the quality of the auction animals so that members may have an equal opportunity in purchasing quality stock from other breeders. Having a good time while doing this is just a benefit we can all share in promoting the Jersey Woolly rabbit.

YOUTH SCHOLARSHIP

Ear #: CASA

Weight: 2# 8oz

Ear Length: 2 3/8"

DOB: 12/1/24

Sire: GC B&B's Zephyr (REW, 6 legs)

Dam: Hopewell's Cassandra (REW, 4 legs)

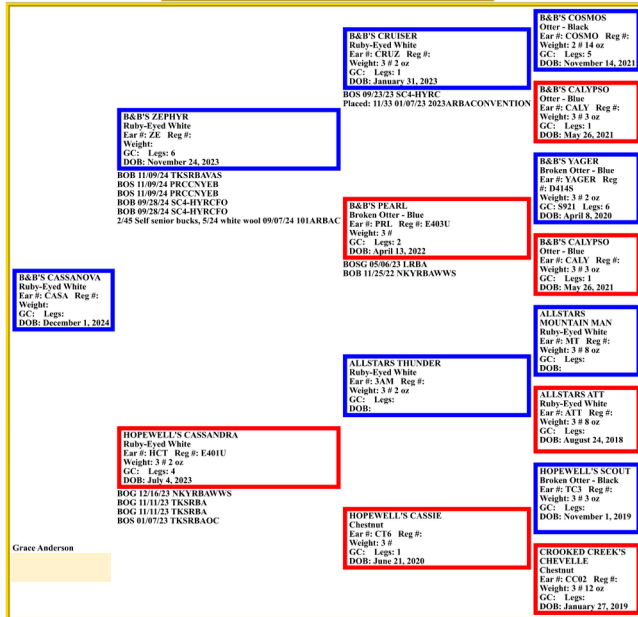

Donated by: Grace Anderson
B&B Farm Rabbitry

B&B'S CASSANOVA

Red-EyedWhiteSRBuck (not proven)

B&B's Cassanova is a small, typey buck who is a natural poser. He was 1st place self JR buck at the 2025 NJWRC Nationals. He has been slow to mature, so has not been shown as a senior, but is really starting to develop nicely! He is short, has a correct easy care coat and good disposition. I would like to see a bit more width overall, and wider head, but that will likely develop with age. His sire was 2nd place self SR buck at the 2024 ARBA Convention to the BOB winner.

B & B Farm Rabbitry Jersey Wooly Pedigree

YOUTH SCHOLARSHIP

WILD MEADOWS DAENERYS

Sable Marten SR Doe (proven)

Ear #: DANY

Weight: 2# 8oz

Ear Length: 2 1/4"

DOB: 11/29/23

Sire: AFB's Teddy (Sable Marten, 2 legs)

Dam: Chase's Lucrezia (Smoke Pearl)

Donated by: Meadow Sultan &
Bethany Robertson
WildMeadowsRabbitry

Dany is a lovely little doe who had a limited show career before going into breeding. When in coat, she carries decent density and really nice texture. Dany has a strong shoulder and topline, a decent hindquarter, very smooth sidelines and good boldness to her head. Dany has been an excellent mother, raising 2 litters, with no peanuts. Although Dany can add many things to your herd, I would like to see more thickness to her ear, a little better placement of ear and more head furnishings. One thing in particular I like about this doe is you can take her home and put her right back into breeding, or condition her out and put her back on the show table. Although she isn't dressed the best right now, she has kept her girlish figure! We donated Dany this year because we really wanted to give back to the Golden Fleece Auction that has benefitted Wild Meadows. We won Dany's dad in the Golden Fleece Auction in 2023 and Dany was from his first litter born at Wild Meadows.

Maple Lane Woolies**

MLW LEFLEDA

BrokenSiameseSable SR Doe (not proven)

This doe has a beautiful head and ear set, along with a short body, full hindquarters and great width in the shoulders. Very good coat texture. In her transition to senior, this doe has a tiny bit of roughness over the hindquarter, but has shown improvement over the last few weeks. Lefleda's pedigree is known for beautiful Siamese sable color, correct ears and placement as well as coat texture. Her grand sire was Best Shaded at the 2023 Louisville Convention. Also in her pedigree, Pi's Notorious, throws great butterflies in the brokenes, great wool and dispositions. Lefleda is registered.

Wool-F Pack Rabbitry

Maddie & Michelle DeSelm

Barnwood Rabbitry

Trip is a truly special rabbit. Not because he's a nice rabbit, but because he is the product of a friendship. This handsome smoke pearl buck is out of Barnwood's Timbit (the 2024 BOG Shaded at convention) and a daughter of Wool-F Pack's Dean (the 2025 Rabbit of the Year). Pedigree alone would make this rabbit one to go after. I love Trip's short typey body, good shoulders and loin, full hindquarters and smooth transitions. His color is ideal for a smoke pearl and the texture to his coat is lovely. He could use a little more density, but none the less the epitome of easy care wool. He's got a gorgeous head and ears with a great headset. Trip is a lazy & shy bunny when it comes to table time, so he may need to be worked with posing, but when he decides it's not all that bad, he truly shows himself off. He is a proven buck and has produced some very nice first crop babies. This is a really great chance to bring in a rabbit with genetics and eye appeal.

MCK'S PIPER

PointedWhite – Black SR Buck (not proven)

Ear #: BOI

Weight: 2# 6oz

Ear Length: 2"

Legs: 2 legs

DOB: 7/19/24

Sire: McK's Pip (Pointed White – Black, 9 legs)

Dam: Blue Willow's Grace (Pointed White – Black)

Donated by: Crystal Clack

McKenzieRiver Rabbitry

This sweet buck is from generations of Pointed Whites! His sire is McK's Pip, who is a multi-leg grand champion herd buck at McKenzie River Rabbitry. His dam is BW's Grace – a very prominent brood doe in our herd. Piper is a lovely little buck, weighing in at 2 pounds 6 ounces. He's earned two legs so far and is pending ARBA registration. Currently, he is in a heavy molt, but when he's in full coat, he has great density, texture, and length to coat. His strengths include a broad head, excellent substance to his ears, deep shoulders, and a wide chest. His weakness? He's longer in the body with slight pins. To mitigate this, I would breed him to a shorter doe with good HQs. He will continue to fill out and reach his prime at around 2 years of age – I anticipate a massive head on this guy! He will be a great addition to a Pointed White breeding program. Once his coat comes in, I have no doubt he will be collecting more legs and get graded! Piper is vaccinated against RHDV-2 and will be due for his booster in the spring.

Snuggle Buns Rabbitry

SNUGGLEBUN'S ICE ON MY TEETH

Red Eyed White SR Doe (not proven)

This is the sister, not brother as we originally thought, to the doe that is in the Trio. Carlie got ICE's dam, Allstar's Doja Kat, in the 1st Youth Only Auction. She and I wanted to give back to the Scholarship committee to thank them for that wonderful doe, so we are donating ICE who is out of Doja Kat. Ice is a nice little doe who should have a very nice senior coat. I love her head and ear, but would prefer a tad bigger.

MCK'S MR MARTIN

PointedWhite-BlackSR Buck (proven)

Offered for your consideration is McK's Mr Martin. He is being jointly offered by Lori Robasciotti and his breeder Crystal Clack. Don't let the size of this black pointed white buck fool you. He is tiny by mighty! Mr Martin has beautiful point color that his breeder, Crystal, is known for. He has short 2 3/8" ears that top off his handsome head. With a short, compact body weighing in at 2.08 lbs, he would be an asset to anyone's herd. Mr Martin's DOB is 3/24/23 and he is proven. This boy has never met a doe he didn't like! He is the sire of this year's NJWRC National AOV BOG winning doe. There are 2 things I would change about Marty. One, I'd like him to be 8 ounces heavier. Two, he can have a softer, harder care coat at times. Currently, his coat is in a good stage.

Ear #: MC3

Weight: 2# 8oz

GC B&B'S THOR

Black SR Buck (proven)

Ear #: THOR

Weight: 3# 2oz

Ear Length: 2 1/2"

Legs: 10 legs

DOB: 10/12/22

Sire: MB's Remington (Chestnut)

Dam: B&B's Glamour (Broken Black, 1 leg)

Donated by: Grace Anderson
B&BFarm Rabbitry

B&B's Thor is a nicely balanced buck with an easy care, correct coat. He has 10 GC legs, 5 of which are for BOSB. His full sister was 2nd place colored wool at the 2025 NJWRC Nationals, and his grandmother was the 2021 ARBA Convention Open BOB winner. I would like to see a bit bolder head and maybe shorter shoulders on him. Thor is a difficult cut to make, but he has been used a lot in my barn and has had some nice offspring that we have kept. He will be bred to several more of my does before convention. Thor is registered and granded. He also has shaded in his background that doesn't show up on his pedigree.

WILD MEADOWS TAHITI

Broken Black SR Doe (not proven)

Donated by: Meadow Sultan &
Bethany Robertson
Wild MeadowsRabbitry

Tahiti is a VERY solid, wide and smooth doe, with nice fullness to her lower hindquarters. She has just turned senior, but is already sporting a ton of density to her coat and beginning to show promising texture. This girl sports a nicely shaped head with good boldness and really nice thickness of ear, with fairly nice placement. Tahiti does carry a little extra length in the midsection making her an excellent candidate to be a brood doe in the future. Tahiti comes from our strongest, most consistently winning doe line, and we have no doubts that she will carry on all of their strong traits.

JOBRE'S JANIS JOPLIN

Chinchilla SR Doe (proven)

Donated by: John Harris Anderson
JoBre's Rabbitry

Janis Joplin is a special doe to me. She was my first homegrown to win big at a Jersey Wooly Nationals show. She won BOSB as a Junior at the 2024 National Jersey Wooly Youth show in Louisiana. She has also won at least 4 groups at other shows, but she did not receive a leg. She is a brown-eyed chin and she's the ideal size weighing in right at 3lbs. I love her body and type. She's an easy poser and has a nice shake and show coat. If I had to pick something I would change about her, I'd probably want her to have a little bigger head (rather than her pretty doe head) and thicker ear, but other than that, I really like her. I hope that she can be a great doe for someone!

WENDOVER'S NON-COMPLIANCE

Broken Chestnut SR Buck (proven)

Donated by: Steven Buell
WendoverRabbitry

This buck is a little over a year old and proven. He was at convention last year as a young junior in his uglies. When he got home, he went into a bottom cage and stayed there for a long time. During the summer, I took him out and really liked him. At that time, I stripped his coat so that he would grow it back in for convention. At that point, I wasn't planning to offer him up, but who needs 12+ broken bucks?! I believe that he will be better than the buck that I chose to keep, but he just doesn't have the finish right now. This buck has a good placement and openness of ear, though they could be a little rounder. His head doesn't look massive right now due to not being finished. I really like his boldness of eye. I love how upright this buck is and his depth of shoulder. He could benefit from a little more width overall to balance with the depth that he carries. He has my typical type, I like to focus more on depth – it is more eye catching in my opinion. He has a good topline and pretty good fullness in his HQ. I wouldn't mind seeing a little more fullness in his loin to balance him out. His last coat has super length of guard hair, so I am hoping that comes back. He has very nice texture coming in to his coat, but it's not finished yet. Every time I pull him out, I like his wool a little better.

3ROSES' ST STEPHENS DAY

RedEyedWhiteSRBuck (proven)

Donated by: Amelia Bloomer
3RosesRabbitry

Stephen has a very good head and thick ear; his ears do pinch a bit at the top. Stephen has a short wide body, with good shoulders and a wide chest. He could be fuller at the table. His coat is cottony this year; it had better density last year, but we struggled with inadequate air conditioning over the summer. He is likely a genetic blue as 100% of his offspring have been dilute. He was in the top 5 Youth Self SR bucks at the 2024 ARBA Convention, has 15 legs which include 1 All-Breed Best in Show and 1 All-Breed Reserve in Show.

Ear #: Trooper366

Weight: 3# 5oz

Ear Length: 3"

DOB: 12/14/24

Sire: TM's Lawless (Pointed White – Black, 3 legs)

Dam: BolingBabies/Wool-FPack'sCarlie(SiameseSable, 3 legs)

BOLINGBABIESRC TROOPER 366

PointedWhite - BlackSRBuck(notproven)

Donated by: Carlie Boling
BolingBabiesRC

Trooper has a big head, but he's young, so his head isn't done growing yet. This buck has a massive body from the shoulders to the loin. He has very nice bone, lovely shoulders and really nice width plus he is very short in body which I love. He has good texture and density to his coat. He's got nice point color and a pretty wool cap. I fault him on ear length and he tapers a bit in the hindquarters. If I could change him, I'd take some of his width away so his hindquarter would balance more. Trooper's lines include TM & Wool-F Pack.

BARBIE'S SOFIA

SiameseSableSR Doe (not proven)

Sofia is a beautiful siamese sable doe. She has a wide head and thick, well-furred 2 ½" ears. Her profile rises from her shoulders and ends with full, round hindquarters. She is wide from shoulders to hindquarters, presenting a short cobby body. She has good bone and an easy care coat. She has not been bred yet. I would like to see Sofia carry her ears more forward and have more depth in her shoulders.

AFB'S BENNY

SiameseSable SR Buck (not proven)

Donated by: Cody Landis
AFB Rabbitry

Benny is a super promising siamese sable buck who will turn 6 months on 11/16/25. He has an excellent mug head coming in, thick well furred ears and his junior coat has been a super easy care coat. I do wish that his ears were mounted just a bit farther forward and that the tips were a bit more rounded. He is starting to blow his junior coat, so he might be naked for convention. Both of his parents have excellent coats, so we are expecting him to have the same. Benny has a wonderful headmount and smooth topline that rounds well over the hip and flows nicely into a hindquarter that is full all the way to the table. His sire is AFB's Panda Bear who won Youth BIS Group 4 at the 2023 ARBA Convention in Louisville along with many other BIS, RIS, Nationals BOB and convention BOBs. Panda and his sons have been excellent sires and have produced many outstanding rabbits for us, so we are expecting wonderful things from him. His dam's side also holds many of our best rabbits both on the show table and in breeding. His dam's sire AFB's Winston (41 legs) was Open best white wool at the 2023 ARBA Convention. He is a tough one to let go, but I am proud to offer him as my donation.

Cody Landis

TF'S JILL

Blue SR Doe (proven)

Ear #: JILL

Weight: 2# 12oz

Ear Length: 2 1/2"

Legs: 5 legs

DOB: 3/20/24

Sire: TF's Berry (Blue, 3 legs)

Dam: TF's Jane (Blue Otter, 2 legs)

Donated by: Jordan Tucker
Tucker Farms

I am pleased that my donation this year is one that would be beneficial to anyone's herd. She has a great show record, she has 5 GC legs and is already registered and graded. Jill is a natural poser and will sit forever! She has a good head and ear, she has good substance to her ears, but I would like to see them a little bit more open. Jill is well balanced all the way to the table. She has a good start to shoulder and transition into the midsection. She could use a little bit more fullness to the hindquarters though. She is horribly out of coat right now, but when in coat, she has a shake and shine coat. Her coat is very easy care. It has good length and texture, maybe looking for slightly more density. A bonus for this doe is her personality; she is sweet and calm. She's always been my "go-to" rabbit to grab when showing kids how to show or groom a jersey wooly.

CF'S PB2

PointedWhite – Black SR Buck (not proven)

Ear #: PB2

Weight: 2# 6oz

Ear Length: 2 1/4"

DOB: 4/9/25

Sire: 3Bear's Patina (Broken Smoke Pearl)

Dam: LaurelHill'sBackInTheGame(PointedWhite – Black)

Donated by: Rose-Marie Turley
The Bunnies of Castaway Farm

PB2 is a very promising young senior buck with beautiful color, excellent wool and excellent ear carriage. He has a nice compact body type, but is on the smaller side. His head is a little narrow, but looks like it's filling out as he matures. He comes out of excellent lines including Laurel Hills, Two Twins and 3 Bears rabbitries.

JF'S FENNEL

Chestnut SR Buck (not proven)

Ear #: SV1

Weight: 2# 8oz

Ear Length: 2"

Legs: 2 legs

DOB: 10/18/24

Sire: JF' Valarian (REW)

Dam: JF/TF's Sorrel (Chestnut, 1 leg)

Donated by: Eleanor Lefebvre
Jabberwocky Farm

Fennel has an excellent head and ear, a good shoulder that seems to pass down well throughout the generations along with great texture, color and density to his wool. I wish that he had more overall fullness and width, especially in his hindquarter, as it is pinched. Fennel's grandmother, MB's Cinnabon (6 legs) who is the daughter of MB's Spencer (2019 ARBA Convention BOSB Agouti) and Granddaughter of MB's Domino (100+ legs), carries non-extension, so Fennel has about a 25% chance of carrying it himself and being able to produce oranges and torts. I bred Fennel in October and will hopefully have some babies from him around the time of convention. Overall, I wish Fennel was a bigger, wider and more filled-out rabbit; however, he still has a lot of promise. His lines are small and usually slow maturing, with him molting out of his junior coat around 10 months old. Fennel could easily be very beneficial to any herd as a size reducer, possible color project, brood or show bun.
