

PARENTAL CONTROL ANDROID DEVICES

1. Download or open the Google Family Link App .

2. Link your child's Google account to the Google Family Link App.

3. Make sure to follow step-by-step instructions on App and device to manage your child's device

Manage Apps

- Block or Unblock an app
- Setup Requirement for a new app
- Prevent downloads of a new app.
- Manage permissions on apps on device

Time Limits

- Manage Screen Time
- Time limits on Apps
- Add Bedtime
- App Activity

Once you have linked your child's account you will be able to manage that account using the app on your phone or a web browser in your computer or laptop.

Location

- Locate your child's device
- Change your child's location settings

If you need a step-by-step video to help you set up the app on your device scan the QR code for a video.

For more information on how to set up the options listed Scan the QR code.
