

Providence Players of Fairfax [PPF] Theater Group
is proud to announce our
upcoming production, **Silent Sky**.

An inspiring and true-life story of
HENRIETTA LEAVITT,
an astronomer ahead of her time.

- ❖ *It is 1900, and Henrietta has the opportunity to work at Harvard University to help map the stars, yet receives no scientific credit.*
- ❖ *Eager to use Harvard's telescope – the Great Refractor, she's told she will **not** be able to access the telescope **nor** do astronomical research.*
- ❖ *She will only be allowed to log the stars photographed by the men of the department.*
- ❖ *Not dissuaded, Henrietta begins the process of recording the changes she identifies in Cepheid stars – a scientific discovery having profound & lasting impact on the field of astronomy and astrophysics.*

Silent Sky is the poignant tale of a woman's dedication to the stars, and the human touch that makes life under the vast sky beautiful and timeless.
