

Vista Consulting Group Inc.

Philip Moor P.E. is Vista Consulting's Senior Consultant, is a highly experienced litigation support expert. He has been engaged as a primary expert witness and subject matter expert in over 20 different judicial actions as well as a number of administrative regulatory proceedings involving energy-related matters. His extensive prior history as a high-level advisor in the energy sector has contributed to the success of numerous judicial matters in which he has been engaged resulting in well over \$3.5 Billion in judicial recoveries for his clients. He possesses a very broad and deep level of expertise and extensive experience in the energy industry. He fully understands the details of legacy, renewable and nuclear energy technology as well as adherence to the applicable procedural and evidentiary requirements of judicial and regulatory litigation.

Before he began providing litigation support services, he was the Director of Capital Projects at GPU Nuclear successfully managing annual capital budgets and outage schedules for two nuclear power plants. He has provided high-level energy consulting and advisory services to utility and industry clients in addition to leadership roles in energy project development companies. Notable accomplishments include.

- * Owners engineer during construction of the two-unit Susquehanna BWR
- * Director at Architect Engineer Burns and Roe on numerous energy engineering projects
- * Review of AP-1000 Nuclear program for the technology owners.
- * President of High Bridge Energy Development a company founded for SMR development.
- * Managing Director at Radix a company founded for micro reactor support of the military.
- * 20 years providing energy-related expert litigation support as described below (2003-Present).

He was a Chairman of the American Nuclear Society (ANS) President's Special Committee on Small Reactor Licensing serving under three successive ANS presidents. The committee produced seminal white papers on opportunities for Small Reactor Licensing and Development. Mr. Moor's deep network of experts includes many experienced expert witnesses and subject matter experts in a range of important disciplines that may become instrumental in your current or upcoming litigation.

Prior Engagements

Mr. Moor has provided litigation support for many leading law firms including Robbins Geller Rudman & Dowd; Hagens Berman Sobol Shapiro; Labaton Sucharow; and Arnold & Porter among many others. He has also provided detailed analyses of important project management issues in litigation for a number of other client firms. For example, he provided expert litigation support on behalf ratepayers for a failed nuclear project in South Carolina and for AIG Claims in addressing untimely Director & Officer insurance claims by Santee Cooper, a South Carolina utility, in which the matter was ultimately settled in a manner favorable to our client.

Vista has been engaged to provide expert litigation support in a class-action securities fraud and consumer fraud cases against ExxonMobil, Southern Companies, Energy Solutions, BP America, Cisco Systems, Central Maine Power, SCANA, Columbia Natural Resources, and Sasol among other large, publicly traded corporate entities as well as the City of Seattle. As previously noted, our clients have achieved well over \$3.5 Billion in recoveries. We are capable of providing a full and competent expert report and subsequently, based on our specialized research skills and the arguments articulated in the expert report, provide evidentiary oral testimony that attests to the assertions made in the relevant Complaint and during subsequent motion practice.

Our expert report and testimony in your matter will also satisfy the Court's expert qualification requirements to resolve objections that may be raised in Daubert and Frye motions that are filed by parties attempting to strike the evidence that we provide. We have provided testimony and have successfully defended our qualifications against Daubert and Frye motions to exclude. We have frequently testified in depositions as well as in courtrooms and have been certified as expert to testify concerning energy economic regulatory and contractual issues. We also have a robust network of expert independent contractors that are experienced high level subject matter experts including Professional Engineers (P.E.), data analysts, research specialists, software evaluators, economists, technology analysts, field experts, forensic video analysts, construction experts, securities analysts, and cost estimation specialists among others, that can very effectively contribute to a successful litigation strategy. Our experts have never been excluded. Mr. Moors List of Past Designated Expert Litigation Support Engagements is provided below.
