

We are excited to announce we offer an app for Ramm's Fitness.

## Download the App!

**Step 1:** Go to your favorite app store, and search and download the Glofox member app (QR codes included above for your convenience)!

**Step 2:** In the search bar under 'First, Let's Find Your Studio,' type in **Ramm's Fitness** and click on it when it pops up!

**Step 3:** Next, you will click on **Register** from the bottom of the screen.

**Step 4:** Follow all the prompts for creating your account, starting with your email and password.

**Step 5:** Once your account has been created, you can purchase a membership. *Note:* For an individual+child/children or a couples+child/children membership, you will need to set up a family account (required for all children under age 18). To do this, one parent will need to create an account first. Next, go to the profile page and click the "My Family" tab. Then click on "Add a Child Account" and fill in the child's details and click "Create Account". With the couples & couples+child/children, the additional parent must also create an account. The additional adult account will be linked to the couples or family account by a staff member @ Ramm's Fitness after verification of relationship.

**Step 6:** Once registration is complete and payment is made, you will receive an email from **Kisi** with a link to gain door access (may take up to 30 min). Follow that link and instructions.

**Step 7:** Don't forget to click on the profile image in the upper left corner and add your picture!
