ABOUT THE FOUNDER

KRISTEN WARREN

Meet Kristen, the performer who has been jazzing up Brevard county since 2008! In recent years, she has not only headlined the SpaceCoast Music Festival but also made her mark on the world stage. She performed original music at TED studios in NYC and TED countdown in London.

Kristen founded Black Box Blackout in 2022, aiming to bring culture and representation to our community. Kristen is thrilled to shine a light on underrepresented black artists through her month long celebration that takes place every February. It's time to make history again as we embark on our third annual season!

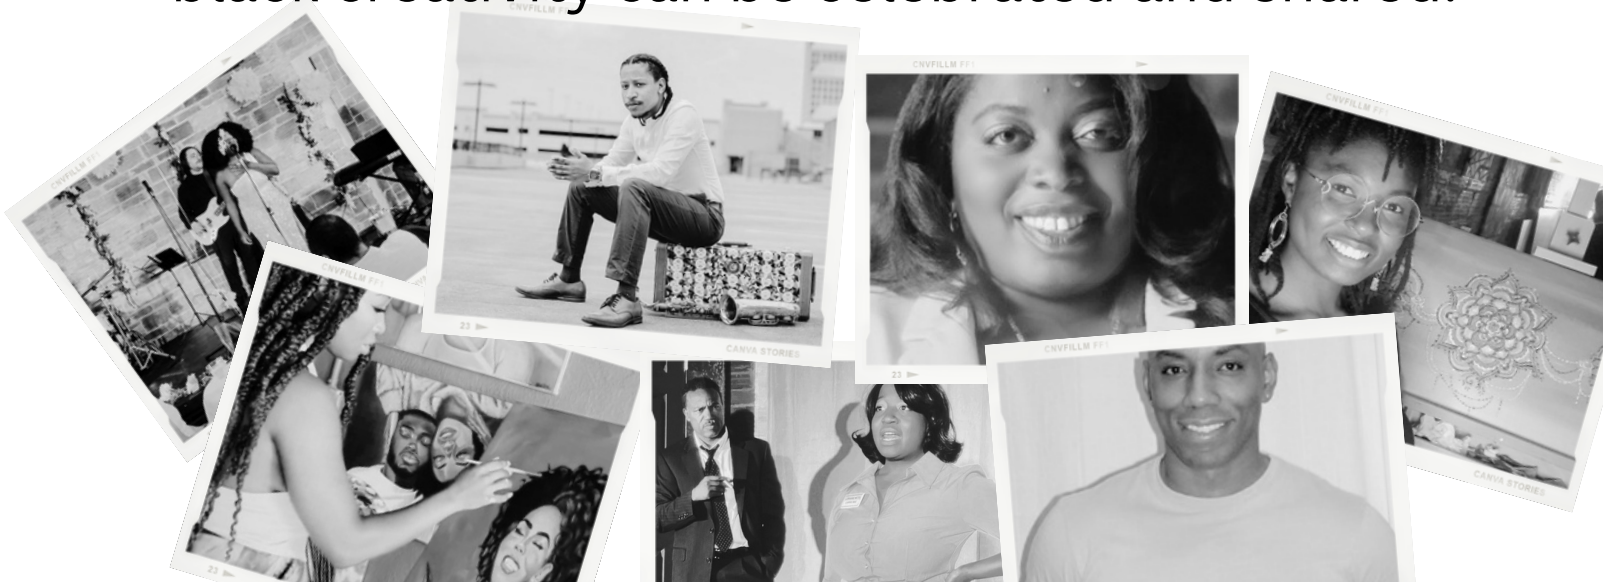

ABOUT BLACK BOX BLACKOUT

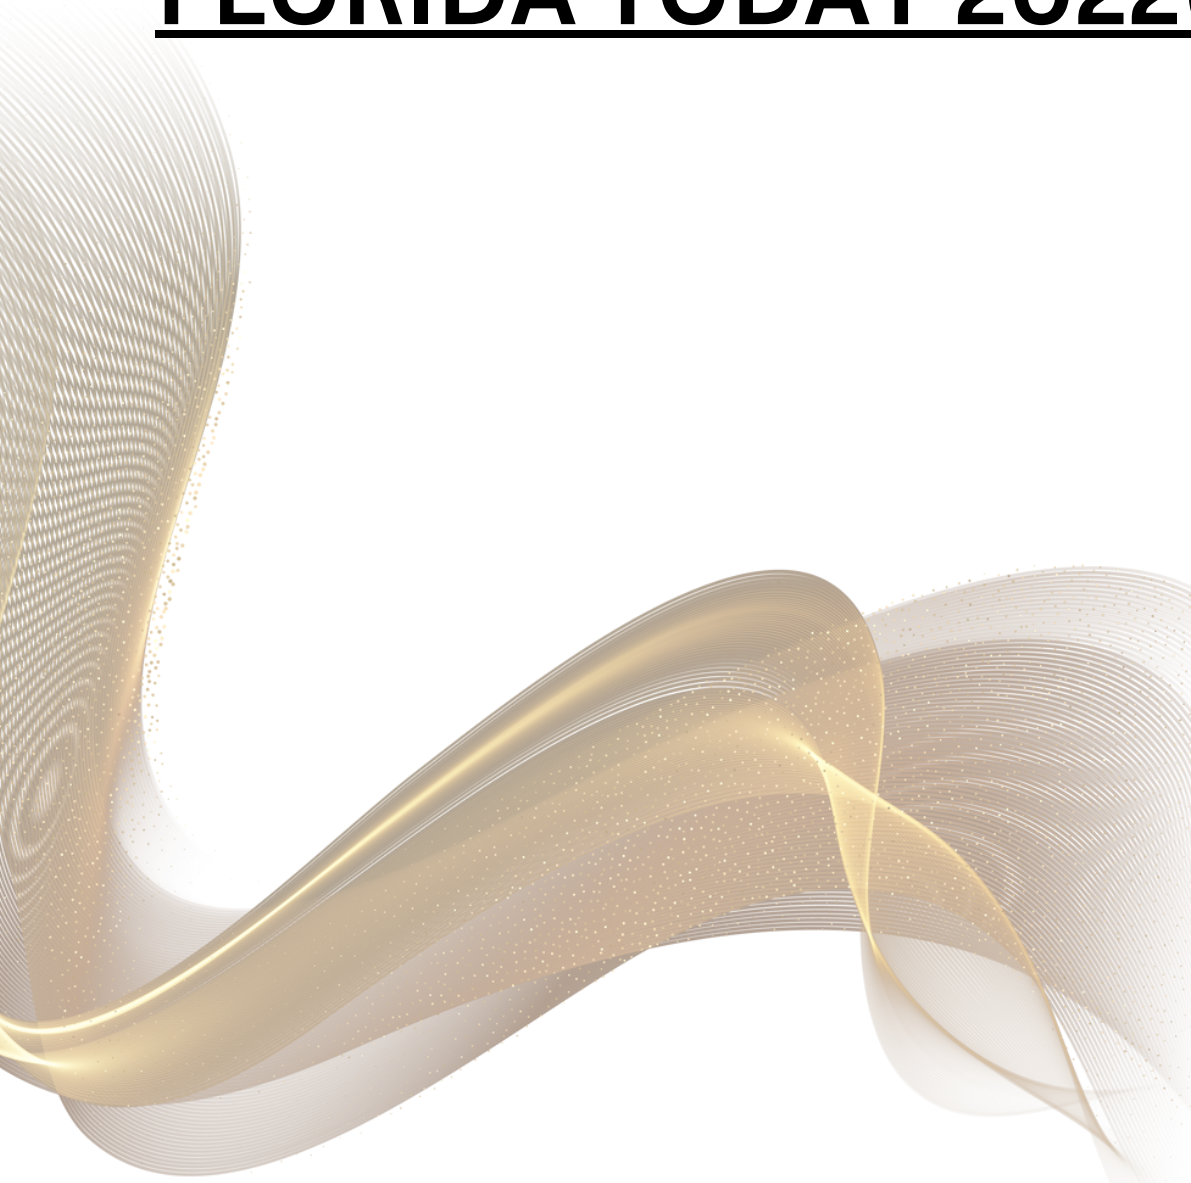

Founded in 2022 by Kristen Warren, Black Box Blackout is on a mission to celebrate black creativity in all its forms. Throughout the year, we host a variety of events, but our highlight is the month-long festival every February, featuring a range of programming. From musical concerts and theatrical productions to community dinners and live art, we strive to create an inclusive space where black creativity can be celebrated and shared.
