- 2 Oval Jump Rings

Instructions by Joyce Trowbridge

Tools:

- 1 Bead Mat
- 2 Chain Nose Pliers
- 1 Round Nose Pliers
- 1 Wire Cutters

Step 1

Cut a **4 inch piece of 24 gauge Wire**. Curl up one end of the wire into a mini spiral.

Step 2

String **1 6mm Bicone** and **1 Bell Flower**. Make a wrapped loop. *Don't Cut Tail.*

Step 3

Continue to wrap the wire around the top of the Bell Flower to look like a bead cap. Bring wire back up to just under the loop and wrap once.

Step 4

Coil the rest of the wire to make it look like a vine curlicue. Trim if needed.

Step 5

Cut an **8 inch piece of 24 gauge wire**. Leave an inch or so tail and wrap wire around the **Botanical Branch** 2 or 3 times.

Step 6

String **1 3mm Bicone** and wrap wire around the Branch 2 times, ending on same side of the Branch.

Step 7

String **1 3mm Bicone** and wrap wire around Branch one time ending on opposite side of the Branch.

Step 8

String **1 3mm Bicone** and wrap wire around the Branch once, ending on opposite side of the Branch.

Step 9

String 1 3mm Bicone, 1 Leaf, and 1 3mm Bicone. Wrap wire around Branch twice ending on opposite side of the Branch.

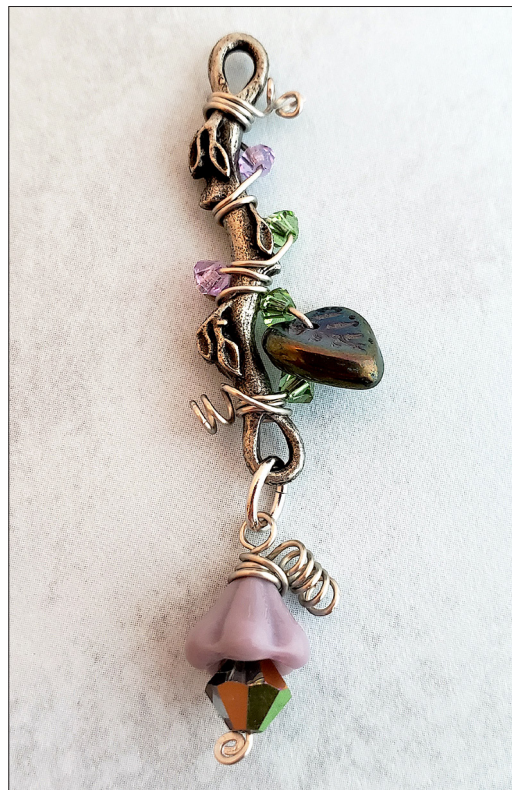

Step 10

Coil the ends of the wire to look like a vine curlicue. Trim if needed.

Step 11

Use an Oval Jump Ring to attach the Bell Flower Dangle to the bottom loop of the Branch.

Step 12

Attach the Earwire to the top loop of the Branch.
