ABOUT US

AGILE Manufacturing, LLC provides electronic fabrication, testing & integration services, and engineering support for the Aerospace, DOD, and Commercial industries. Our experienced engineers and electro-mechanical technicians specialize in design validation, manufacturing, quality assurance, integration, and testing of complex cables & harnesses, and electronics modules such as Interface Adapters, (ITA's) Line Replaceable Units (LRU's), Circuit Card Assemblies (CCA's) MIL-SPEC cables and other electronic subassemblies. ***We also specialize in Hypersonic cable, harness and electronic assembly manufacture.***

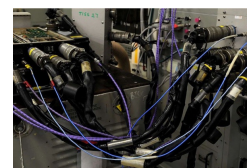

CORE COMPETENCIES

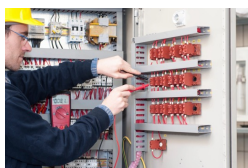

Soldering & TH & SMT
Printed Circuits

Complex Cables for
Aerospace Applications

Product Assembly
Environmental Testing

Chassis & Panel
Manufacturing and
Assembly

Custom Test Equipment
Design, Manufacture
and Support

On-Site Field Service
and M.R.O. Technical
Support

DIFFERENTIATORS

- ✓ **Management Team with 30+ years of Industry Experience.** Our principals have worked in management, engineering and manufacturing operations for companies such as Lockheed Martin, Boeing Aerospace Operations, Q4 Advanced Tactical Systems, and Qubic Corp.
- ✓ **Aerospace & DOD Experienced Turn-Key Technicians and Engineering Aides** who have the skills and experience to manufacture MIL-SPEC cables, components and subassemblies.
- ✓ **Hypersonic Cable and Component Manufacture Expertise.** Our Technicians know how to build these in-demand, special high-performance cable assemblies and harnesses.
- ✓ **FCC and FAA Certified Avionics Technicians.** With our in-house team, and our AVIDIA Technologies Avionics Manufacturing Collaborative staffing network, we can rapidly staff projects and programs with qualified technicians and engineering aides.
- ✓ **We are a small Minority-Owned Business Enterprise (MBE),** but we conduct engineering and manufacturing operations according to Aerospace Industry prime contractor Compliance and Quality Assurance standards.
- ✓ **Our Management Team has experience working with Government and R&D organizations** to develop innovation manufacturing solutions including robotics and automation applications. Our principals have developed manufacturing system solutions for Fortune 500 companies such as Nike, BMW Manufacturing, Ball Corporation, Georgia Pacific & GE.
