Specification Sheet
CV-4
Vapor Burner

Our cast, vapor propane burners are designed to produce dependable, high volumes of heat. Originally for portable and commercial cooking, these burners have also been used in a wide variety of other applications, including fish cookers, popcorn kettles, asphalt heating systems, industrial welding preheat tables, barbecues & smokers. These burners are perfect for round, adjustable flame patterns.

IMPORTANT - The CV series burners are shipped without a gas orifice. The orifice must be specified for fuel type, BTU output, and with (or without) integral shut-off valve.

- Easy Installation
- Includes Mounting Stud & Nut
- Every Unit is Function Tested
- Include Adjustable Air Shutter
- Cast Iron For Long Life Operation
