

Our FV series, vapor burners are used for general purpose heating applications where the system is constantly monitored for proper operation. With solid bases, permanently mounted, these burners are built solid and are economically priced. The FV-91 includes a 100% gas shut-off safety valve that uses a thermocouple for flame heat monitoring. The safety valve will shut off gas flow if heat is lost (the loss of flame).

**\*NOTE - These burners are also available in a stainless steel version. Simply add "-SS" to the end of the part number (ex: FV-91-SS = Standard FV-91 burner with stainless steel sleeve, for high temp operation).**

- Easy Installation
- Fully Welded Construction
- Every Unit is Function Tested
- Shipped with HD Brass Valve
- 100% Safety Shut-Off Valve
- Mounting Hole in Base

Specifications	
BTU Rating	100,000 @ 25 psi
Fuel	Vapor L.P. Gas (Propane)
Fuel Connection	9/16"-18 LH (Ball Seat)
Sleeve Diameter	1-7/8"
Material	1/4" Mild Steel
Length	13-1/2"
Height	4-1/2"
Base	3-1/2" x 8"
Weight	4 lbs.
Color	Grey
