

Liquid propane coil style burners are used in many applications like roofing & paving kettles, agricultural weed flaming, welding & process heating, commercial cooking, and special effects. The coil style burner incorporates an on-board, liquid vaporizer. This allows you to fuel the burner directly with liquid L.P. Gas (liquid withdrawal propane).

IMPORTANT - The use of liquid LP Gas requires the use of special system components and a hydrostatic pressure relief valve. Please refer to NFPA-58 and your local municipal governing agency.

- Easy Installation
- Mounting Hole In Base
- Fully Welded Construction
- Every Unit is Function Tested
- Shipped With HD Brass Valve
- Includes Adjustable Air Shutters

Specifications	
BTU Rating	2,000,000 @ 25 psi
Fuel	Liquid L.P. Gas (Propane)
Fuel Connection	9/16" - 18 LH (Ball Seat)
Coil - Diameter	6"
Coil - Material	3/8" Mild Steel Pipe
Length	24"
Height	37"
Base	5" x 12"
Weight	16 lbs.
Color	Blue
