

Our NG series, vapor power burners are used for general purpose heating applications where unattended use and full flame monitoring are required. This system comes complete with a full automatic ignition and flame monitoring control system installed. The NG series burner can be used with most low pressure vapor fuels. Please contact your Burners, Inc. customer service representative for details.

IMPORTANT - Consult your local municipal governing agency for appropriate installation building codes

- Easy Installation
- On-Board Combustion Blower
- Every Unit is Function Tested
