

Even more fun in details!

CALFMOM Paula

May we present: the "better" PAULA.
Sensible improvements in details make
it the even better choice.

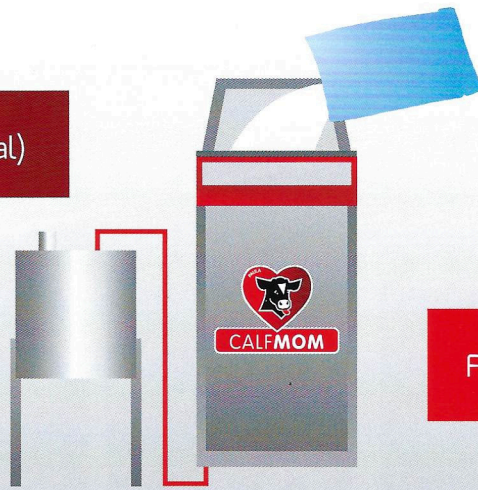

- New teat box with more room
for teaching the calves
- Fully automatic
teat cleaning
- Drinking station
with swing door
- New drinking station
- New aerial

Compact, frost-resistant feeder made of stainless steel

No hoses or lines outside the housing

Whole milk feeding (optional)

Feeding with CMR (standard)

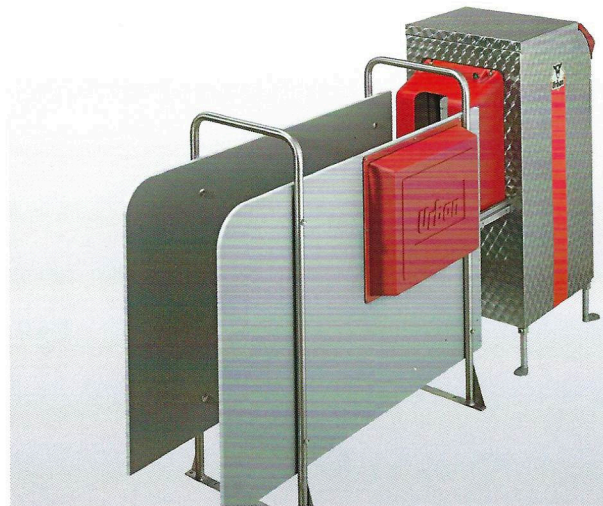

Feeding options

A combination of whole milk and CMR from 0 to 100% is possible (i.e. 40% whole milk / 60% CMR)

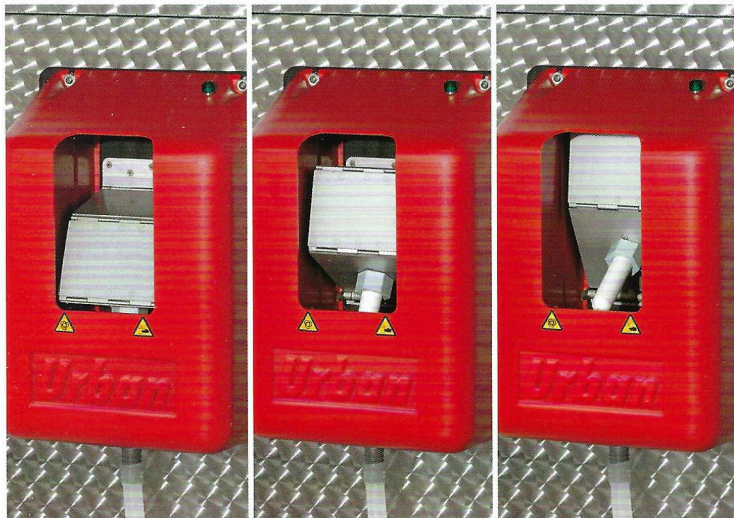

New housing

Easy teaching of calves thanks to more room in the housing.

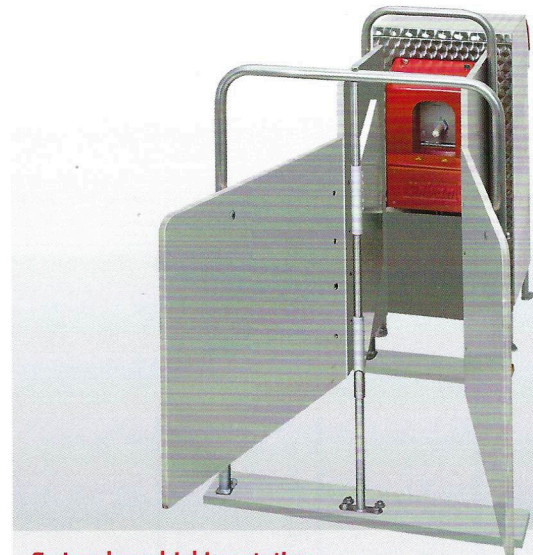

New station boards | New aerial

Aerial on side for ear tag and collar recognition.

Fully automatic teat cleaning – Interruption of the pathogen transmission from one calf to the other via the teat.

Swing door drinking station

Feed two different groups with just one station.
