

I am running for Cherokee County School Board in District 6. The schools in my district include Cherokee HS and Teasley MS. The primary election will be May 24, 2022.

Kate and I have been married 36 years, with one son and a beautiful granddaughter in Kindergarten. We are members of St Michaels the Archangel Church in Woodstock. My Family's roots in Cherokee County go back over eighty years, and my own Elementary School through Medical School education was right here in Georgia. I love Cherokee County and I love our Teachers, but some things in the District have gone astray. I will fight to bring education back to the level of excellence of which we can all be proud.

I am running as a group of 4 candidates for 4 Districts because 4 Can Do More. Our pillars of beliefs are:

1. Trust requires Transparency – Transparency Triad
2. Educate Don't Indoctrinate - Curriculum
3. Unity Not Division – CRT/SEL/DEI
4. Choice Not Coercion – No Vaccine or Mask Mandates

I will treat parents with RESPECT and listen to your concerns. You are the first in line to educate your children. Your voice matters!

Transparency in education is important to protect our children.

I will reject all indoctrination of our students, and I will remove divisive materials and ideologies from our classrooms that is causing division of our kids.

I will stop the intrusive questionnaires that have no educational value and give companies too much personal information about our kids.

I will listen to the concerns of teachers, and I will work for a safe and productive classroom.

Unfortunately, the current board members have grown complacent and out of touch with families who voted for them. I will stand up for you and your kids. Change is coming, and I am ready to lead the charge!

Ray Lynch MD graduated from Cass High School in Bartow County at age 16, Kennesaw Junior College, the University of Georgia, and Medical College of Georgia before starting a residency in Emergency Medicine. Dr Lynch is Board Certified in Emergency Medicine and licensed in the state of Georgia with 23 years of patient care experience, 9 years of health insurance utilization management experience, 16 years of management oversight, 11 years academic experience, team leadership, mentoring/coaching/training, analytical and communication skills. Dr. Lynch transitioned to administrative medicine becoming a Medical Director for a major health plan in Florida responsible for a \$123 million budget and a staff of 80 providing Medicare, Medicaid, and Commercial products. With this experience he was recruited to be the Senior Vice-President for a physician network of 44 employed physicians and 200 employees in Louisiana. Dr Lynch stayed focused on quality and improvement of patient care. Sharing his wealth of knowledge and experience, Dr Lynch taught college level allied health students for 11 years earning the Excellence in Teaching Award. He became the Histotechnician Program Coordinator responsible for revising the curriculum and course objectives; obtaining a full Accreditation award from a national association; improved student graduation rates, board certification pass rates, and employment rates. He was co-principal investigator for a one million dollar NIH grant. He also served on a hospital Institutional Review Board to review patient agreements for drug and device research studies. Dr Lynch has decades of strong technology development and programming experience most recently developing a company that provided a complete care management program for sleep apnea. He developed and patented software providing patients Internet access to their personal therapy data as well as creating and implementing policy and procedures that resulted in successful Accreditation by the American Board of Sleep Medicine.

Dr Ray Lynch has the experience in setting vision, making policies, and approving budgets that will lead to improving Cherokee County schools and student academic achievements.
