

# SALT FLOAT SENSORY DEPRIVATION TANK

The tank is dark and quiet, giving your eyes and ears a welcome rest. The chamber is filled with a shallow pool of water saturated with epsom salt, offering buoyancy that helps you effortlessly float. This womb-like feeling that comes with floating heightens that sense of detachment from the world. Essentially, it creates an environment where you're untethered and not even bound by the laws of gravity.

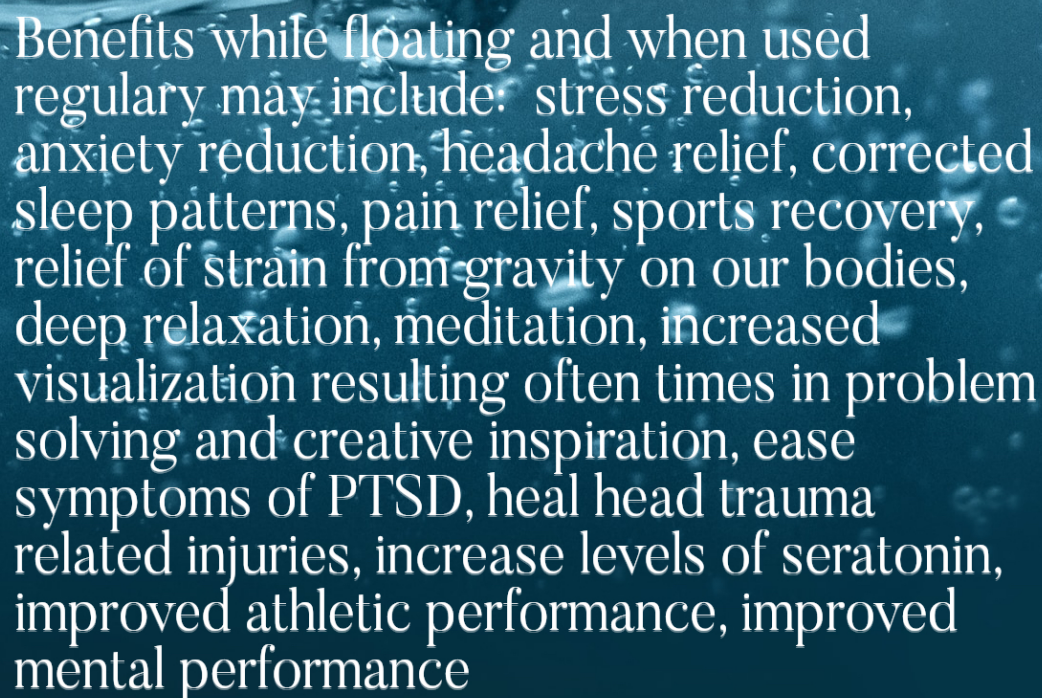

Each float session is 60 minutes

\$55/(1) float

\$100/(2) floats

\$135/(3) floats

\$160/(4) floats

Benefits while floating and when used regularly may include: stress reduction, anxiety reduction, headache relief, corrected sleep patterns, pain relief, sports recovery, relief of strain from gravity on our bodies, deep relaxation, meditation, increased visualization resulting often times in problem solving and creative inspiration, ease symptoms of PTSD, heal head trauma related injuries, increase levels of serotonin, improved athletic performance, improved mental performance
