Montana Catholics For Life

Help to stop CI-128
Shareable Video Testimonial - Montana Doctor

As a practicing physician in Montana, Dr. Krach is an expert who understands the harmful implications of CI-128.

- The term "healthcare professional" is undefined. No one knows who will make Life-or-death medical decisions about abortions.
- Fetal viability is determined solely by an undefined "healthcare professional" - who makes the life-or-death determination.
- Parental Notification of abortion when girls are under 16 would become unconstitutional.
- A constitutional "right" to abortion is not needed. By law, Doctors in Montana already provide a woman with care when a child dies before birth or in cases of ectopic pregnancy.

These facts are not well-known. Please share Dr. Krach's message as we pray, fast, and defend the sanctity of unborn life and the safety and dignity of mothers and families. You will find the Bishops' letter, an updated Fact Sheet and more shareable video testimonials at the QR code or at <https://mcc-sa.org>.
