

NEW PRODUCT INTRO

# SKWAD LT

*Electric pedal Assist Bike*

# INTRODUCING THE HARO SKWAD LT:

Lightweight, nimble and born for modern life. With a boost of pedal-assisted power that's minimalist by design, this smart bike sports a compact frame size making Skwad LT an excellent travel companion. Cleverly spec'd 20-inch wheels allow it to easily tuck into smaller spaces. The 250 Watt motor and low center of gravity deliver fast and balanced bike handling even under load, so personalize your ride with an assortment of baskets, crates and bags.

## RIDER'S APP

Download the Rider's App using the QR code or at the Apple App Store. Use the app to connect your Skwad LT to the app. The app offers a wide array of features, including weather notification, battery capacity, bike status, diagnostics, assistance mode, navigation, home page, and your personal profile. The app will collect information about your total mileage, average speed, and riding history record. The navigation feature includes a map function, route suggestion, estimated time of arrival (ETA), and will calculate for battery capacity in regard to selected route to make sure you have enough battery capacity for the ride.
