

Oakley Brown Corp
FOR GLOBAL EQUITY

CAPABILITY STATEMENT

Oakley Brown Corp is a distinguished global mental health consulting firm and small business, proudly owned by minority and women entrepreneurs. We help organizations and leaders create and build mentally resilient environments.

With over 15 years of experience in public and global health, our team of doctoral-trained researchers and clinicians in psychiatric nursing lead the charge.

Our expertise spans four continents, making us well-equipped in building relationships with health agencies on a global scale. At Oakley Brown, our approach to planning, workforce development, health system strengthening, capacity building, and strategic planning is centered around community-driven data. We specialize in strengthening healthcare systems through strategic planning, program development, educational service provision, program evaluation, and workforce capacity building.
