

Octane Environmental

Biogas / Renewable Energy (RE) – Project Manager

Location: Travel Required (Multi-Site)

Industry: Renewable Natural Gas (RNG) / Biogas

Experience Level: 8–12+ Years Preferred

Reporting Structure: Reports to Director of Corporate Safety, RE/Biogas and Rescue Teams

Who We Are

At Octane Environmental, we exist to take on the toughest environments and deliver when it matters most. We bring relentless execution, uncompromising safety, and battle-tested solutions to biogas, oil & gas, industrial cleaning, and beyond. We don't cut corners. We don't back down. We build, contain, clean, and respond with discipline and grit — protecting people, safeguarding operations, and raising the standard in every field we enter. We rise to pressure. We perform in the critical moments.

We are building momentum in the biogas and renewable energy space — partnering with leading developers and operators to support digester construction, maintenance, and long-term performance.

We don't just show up — we execute, solve problems, provide suggestions, and deliver results in the field.

The Opportunity

We are looking for a high-level field professional who understands digesters/ AST's from the ground up.

This role blends mechanical expertise, field execution, and a commissioning mindset.

If you've built it, cleaned it, fixed it, and started it up — we want to talk.

Core Responsibilities

- Lead and support digester / AST installation
- Execute bolt-up installs, roof systems, and mechanical tie-ins
- Ability to read and interpret construction/engineering blueprints and technical drawings
- Perform digester cleanouts, inspections, and maintenance
- Read and execute blueprints, P&IDs, and OEM specifications
- Install and trouble shoot mixers, pumps, gas systems, and mechanical equipment
- Trouble shoot any digester issue and provide solutions in real time
- Coordinate with General Contractors, Site Managers, Engineers, and OEMs
- Operate across multiple active job sites
- Risk management awareness, protecting our employees and clients
- Be able to identify critical task situations and fill out proper paperwork to go with it
- Training and developing our crews
- Client service and team focused

What We're Looking For

- 8–12+ years in biogas / anaerobic digesters and/or construction experience
- Certified Project manager is a plus but not required
- Strong mechanical, process and facilities operating background
- Experience with multiple digester types
- Experience with mixers, cables, and drive systems
- Roof installations (membrane / gas-tight)
- Ability to build and follow specifications
- Field experience in cleanouts, repairs, and new construction
- Ultimate team player

Safety & Field Awareness

- Confined Space Certified
- Fit Tested / Respiratory
- Understanding of H2S and biogas hazards
- Awareness of weather limitations and jobsite conditions
- Safety-first mindset

Leadership & Communication

- Strong communicator with field presence
- Be able to Translate Spanish is a plus but not necessary
- Ability to report clearly to leadership
- Coordinate with on-site teams and drive progress/ results
- Self-sufficient and solutions-oriented

What Sets You Apart

- Commissioning experience (start-up to operations)
- RNG upgrading system exposure
- Ability to lead and develop crews and take ownership of projects
- Willingness to travel and take on challenges
- Risk management awareness — protecting our employees and clients
- Training and developing our crew
- Client service and team focused
- Team player

Compensation

Competitive pay based on experience and capability. Opportunity to grow with a company gaining traction in the RNG / Biogas, Oil & Gas, Industrial Cleaning markets.

Benefits Octane Offers

- 401K
- Dental
- Vision
- Medical Insurance (Family)
- Company Truck (Or competitive truck allowance)

Why Octane

We are not a sit-back company. We are building something in the Renewable Energy, Oil & Gas, and Industrial Cleaning space — and we're looking for people who want to be part of it.

If you're looking to just clock in — this isn't it.
If you want to build, lead, and grow — let's talk.
