Team Links™ Challenge Program

Overview

Team Links Challenge Programs are an opportunity for a hands-on learning experience, while strengthening relationships and gaining new insights about effective communication and teamwork.

Client Needs and Goals

Every Team Links begins and ends with client input. By identifying client needs and objectives, we custom design a program that aligns with your goals and objectives

Build Skills and Confidence

Each activity provides teams with an opportunity to apply new insights and skills to effectively collaborate and solve problems with one another.

Strengthen Connections

We start each Team Links with warm up activities that are designed to put people at ease, prompt laughter, spark conversation, and build connections.

Hands-On, Team Problem Solving

Teams are challenged with a series of activities that require creative thinking, planning, and problem-solving, and can only be accomplished when people work together. Each challenge takes about 25 minutes to complete. Each activity provides an opportunity to gain tools and insights to work effectively with people in order to achieve results.

Team Links™ Challenge Programs

Facilitated Debrief

Activities provide a valuable springboard for teams to reflect, discuss, and gain shared insights about skills and strategies to work efficiently and effectively together while working towards goals.

Indoor and Outdoor Venues

Team Links is portable and can be held in both indoor and outdoor settings.

Group Size

Team Links accommodates a range of group sizes from 4 to over 100 participants. Large groups are divided into smaller teams of approximately 10 people each. Each team has an opportunity to complete the menu of facilitated activities.
