**CAT COLORS:** Grey is called BLUE. Orange is called RED. Light Tan is called CREAM. Black is called BLACK.

**Cat Patterns:** If your cat is all one color it is a SOLID. Solid cats with white areas (larger than a quarter) are called SOLID & WHITE. If your cat's ears, tail, muzzle and feet are darker than the rest of the body, and the cat has blue eyes, it is a POINTED CAT. If your cat has stripes on its body and an "M" on its forehead, it is a TABBY. If your TABBY cat has a significant amount of white, it is a TABBY & WHITE. If your cat has a mixed coat of red and black (no white), it is a TORTOISESHELL. If your cat has patches of red, black and a distinct area of white, it is a TORTIE & WHITE. If the coloring in your Tortoiseshell is Blue and Cream, it is a DILUTE TORTOISESHELL. If your cat's coat is much lighter underneath, it is a SHADED cat.

**If you are unsure of your cat's color or pattern, send a photo with your entry!**
