

★ JERSEY CITY ★
**OFFICE OF
SENIORS**

Loving and caring for our seniors is a moral imperative. They raised us, built our City, and deserve to age with dignity and security.

▶ **INSIDE: JIM MCGREEVEY'S PLAN
FOR JERSEY CITY'S SENIORS**

**HEALTH CARE, HOUSING,
TRANSIT, *and* RECREATION**

Jersey City must support its seniors with affordable housing, accessible healthcare, reliable transit, and opportunities for community engagement.

Every elder deserves to age with security and remain rooted in the City they call home.

HOMES *with* DIGNITY, BUILT FOR AGING IN PLACE

- Prioritize senior units in affordable housing projects
- Build 1,000 new residential units with faith-based partners
- Prevent displacement of seniors
- Offer incentives to retrofit or build senior housing
- Secure funding with HUD and NJHMFA
- Provide affordable senior units for seniors who want to sell their homes so that they may stay in their community.

**ACCESSIBLE,
AFFORDABLE, *and*
COMPASSIONATE**
Senior Care

- **Partner with hospitals and FQHCs** to bring geriatric, dental, and mental health care to our seniors.
- **Promote in-home care** to help seniors age in place.
- **Provide wellness visits**, testing, and vaccinations in senior housing.
- **Launch health fairs** with screenings and preventive care.
- **Deploy mobile health units** that serve public housing and senior communities.

FROM SHUTTLES TO SIDEWALKS:

MAKING JERSEY CITY SENIOR-FRIENDLY

- **Expand senior shuttle routes** to all Wards, including routes to grocery stores, doctors, and community centers.
- **Improve sidewalks, benches, and curb ramps.**
- **Inform seniors** of NJ Transit reduced-fare programs.
- **Launch ride-share** or taxi options for seniors with mobility challenges.

CONNECTION, CREATIVITY, AND COMMUNITY

FOR OUR SENIORS

- **Invest in senior centers in every Ward**, offering senior programs in exercise, the arts, bingo, technology literacy, and intergenerational activities.
- **Create a “Senior Outdoors” initiative** with accessible walking clubs, park programming, and gardening projects to reduce isolation.
- **Support lifelong learning** by partnering with Hudson County Community College and Jersey City libraries to provide free courses and workshops for older adults.
- **Host interfaith and cultural events** that celebrate the culture, food, faith, and diversity of Jersey City's senior population and promote civic involvement.

Listening **TO OUR ELDERs,**
LEADING WITH *their* VOICES

Jersey City must create an Office of Seniors to advocate for seniors' rights and well-being.
As your next Mayor, I will.
