Advantages of PMI's Project Management Professional (PMP) Certification

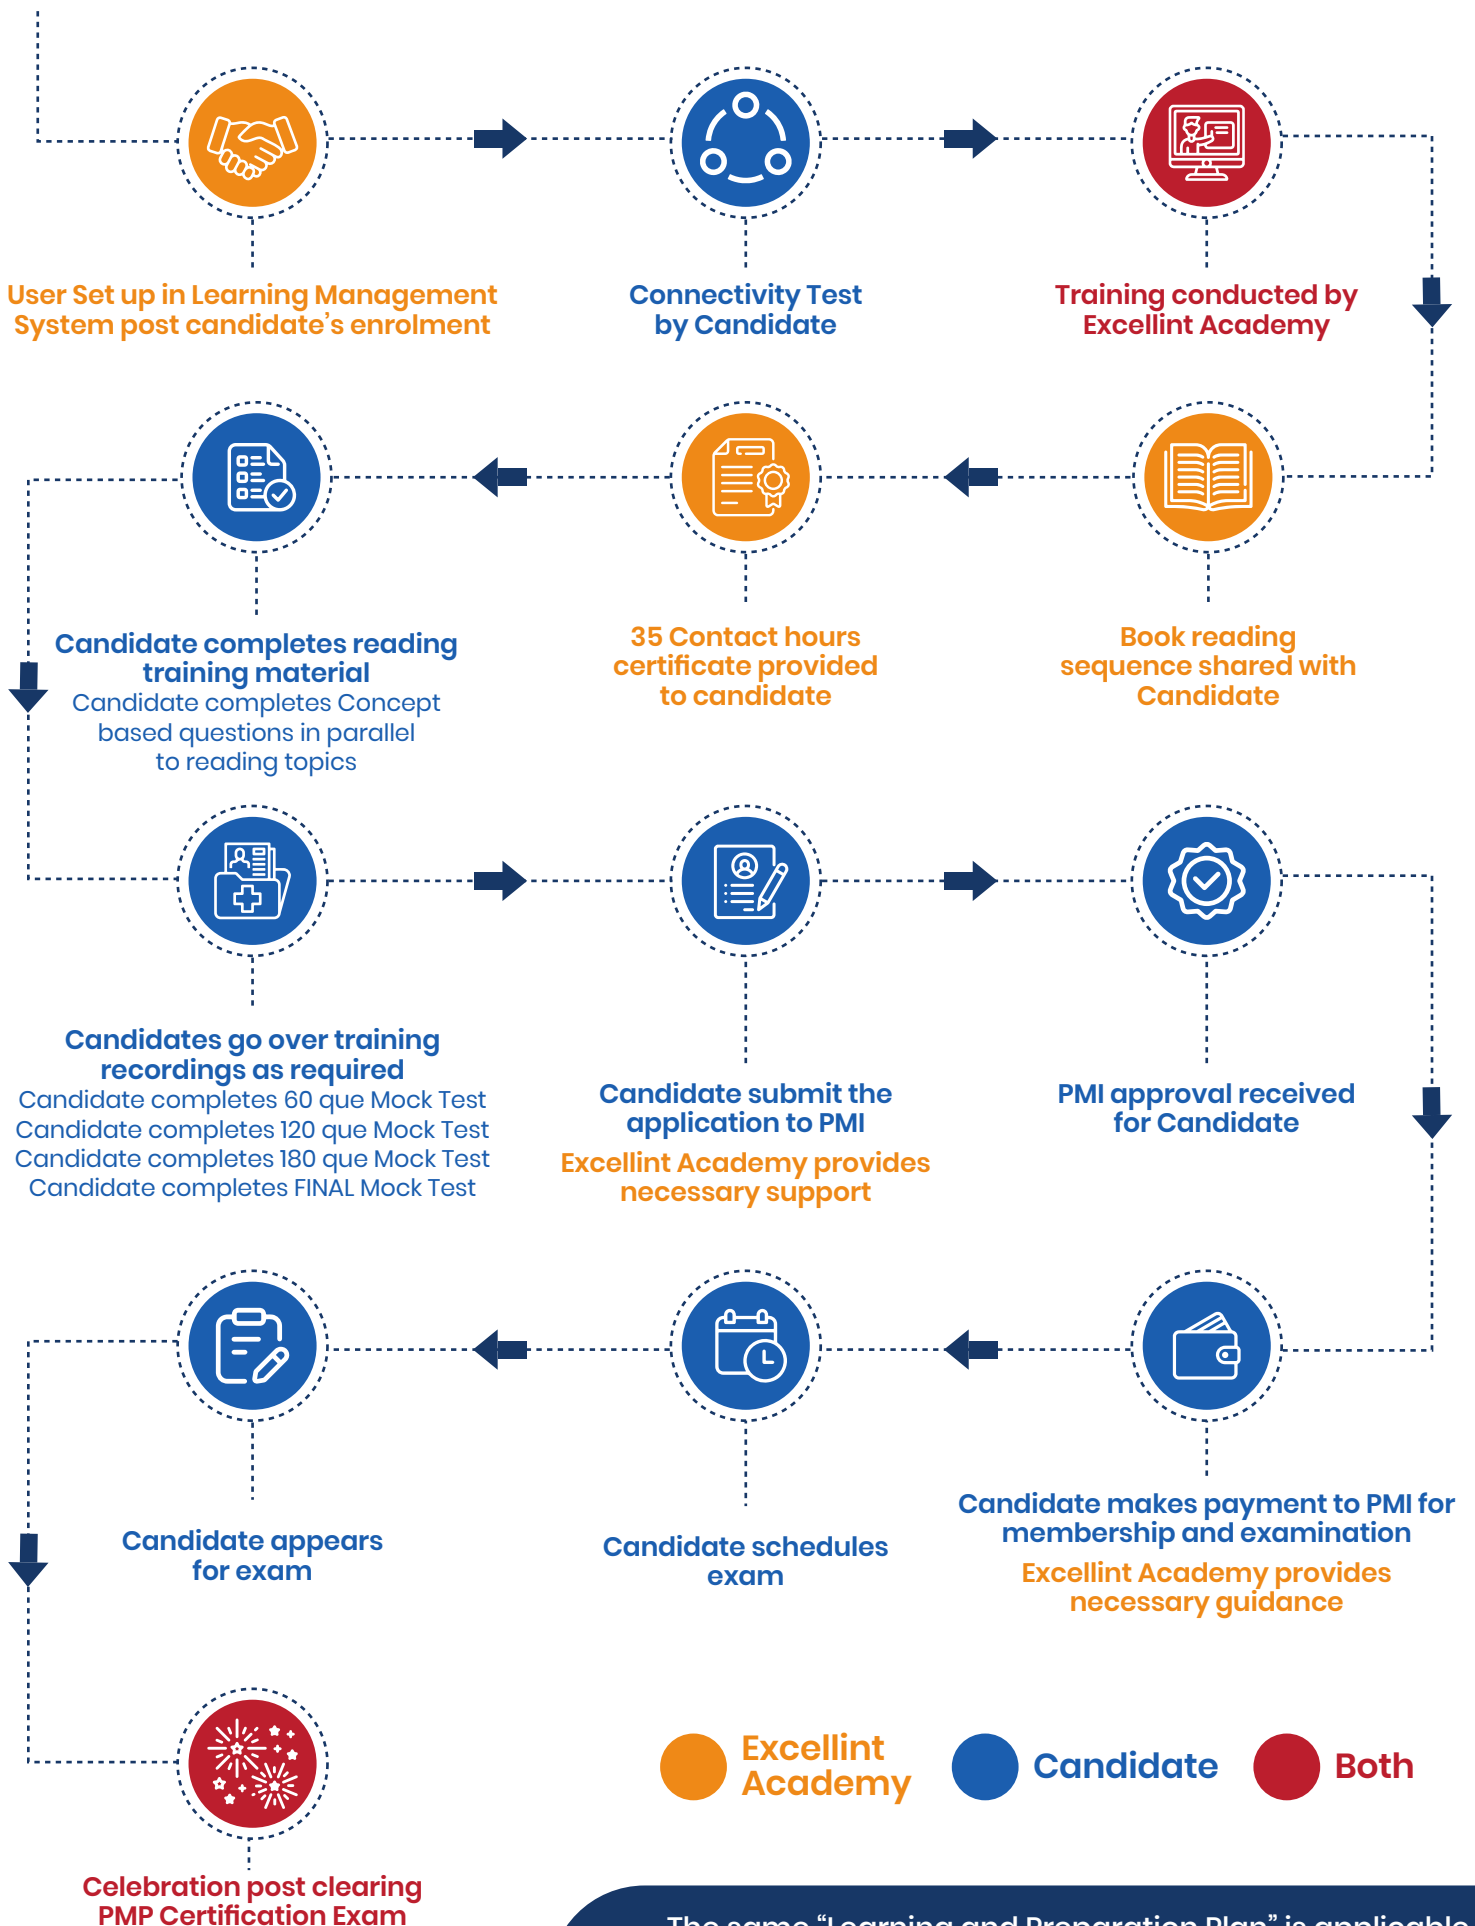

- Globally Recognized Professional Certificate for Project Managers.
- Enables project managers to establish more competitive project management approach, processes and procedures to achieve the successful accomplishment of projects by delivering values to stakeholders.
- Clarity of when to use predictive vs. agile project management methodologies.
- Better Remuneration at your work place.
- Improved effectiveness and efficiency in professional and personal life.

Why Excellint Academy

Get PMP certified based on new syllabus from PMI starting January 2021

Learning and Preparation Plan

The same "Learning and Preparation Plan" is applicable for our offline trainings in group or corporate set ups. Contact us to know more.

Additional Certification / Training Programs

Disciplined Agile: The Disciplined Agile (DA™) tool kit supplies straightforward guidance to help you, your team, and your enterprise increase effectiveness. Apply and evolve your way of working (WoW) in a context-sensitive manner with this people-first, learning-oriented hybrid agile approach.

PMI-ACP (Agile Certified Practitioner): PMI Agile Certified Practitioner (PMI-ACP) formally recognizes your knowledge of agile principles and your skill with agile techniques. The PMI-ACP spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD.) So it will increase your versatility, wherever your projects may take you.

PMI CAPM (Certified Associate of Project Management): The CAPM certification is an essential first step in building a career as a project manager. It can also aid you in pursuing many of our major certifications including the gold standard PM certification, the Project Management Professional (PMP)

Lean and Six Sigma: We are proudly associated with Institute of Quality and Reliability and Institute of Systems for training and consulting services in the field of Lean and Six Sigma.
