About Desert Princess Palm Springs Real Estate www.desertprincessrealestate.com

Desert Princess Palm Springs Real Estate is an independently owned full-service real estate company. We have worked in the **Desert Princess Country Club** since the year 2000, handling listings, sales, vacation rentals, long-term rentals, acquisition/rehab projects and anything else related to real estate. Over the years, we have developed many long-term relationships with homeowners and tenants within the Desert Princess community.

We believe that the secret to our success is great customer service; we know that our reputation depends on it. We provide service to homeowners and tenants 24 hours a day, 7 days a week. We pride ourselves on our quick response.

While some firms focus on short-term nightly and weekly vacation rentals with high turnover, excessive property wear and tear and perhaps a service level that is less than ideal, we believe that Desert Princess owners and vacation tenants alike are looking for a higher level of service, luxury, quality of properties and more respectful tenants staying at least 30 days or more. Although we can arrange for rentals of less than 30 days, our focus is quality vacation rental tenants for quality luxury properties who expect to treat their vacation rental like their own home.

Please consider us when you make the very important decision to lease, buy or sell property in **Desert Princess Palm Springs**. If you are interested in seeing current properties for sale while you are here, please contact us to arrange some showings.

TV INFORMATION

The local CATV provider is Spectrum. Your service includes most channels, Showtime and HBO. The Spectrum remote has a GUIDE button which shows an on-screen channel guide. All channels are in HD. They are constantly adding new channels. For most up to date list: <https://www.spectrum.com/browse/content/new-channel-lineup.html>

Many of our rentals have Smart TVs. If so, you should be able to access your Roku, Amazon Prime, HULU, Netflix, YouTube or other streaming services by your personal login.

REMOTE CONTROL INSTRUCTIONS

Most TVs can be operated using one remote. The Spectrum remote is synced to the TV. The cable box should be left on at all times (Spectrum frequently updates the Cable boxes remotely). The cable is “on” when the green/blue light is on; the digital clock is always on & does not indicate that the box is “on”. If you do not see the blue/green light, press CBL (gray oval button at the top of the remote) & then press the red power button (upper right) to turn the cable box on.

Once the cable box is on (blue/green light is on), you can use the remote to turn on the TV. Press TV (gray oval button at the top of the remote) to change to TV mode & then press the red power button. This sequence turns the TV on & off. If the cable box is on you will have a picture.

Once the TV is on, press CBL button to return to cable mode. This allows you to use the GUIDE button to access the on screen channel menu. When in the GUIDE, use the arrows to browse & the blue SELECT button in the center of the arrows to choose a channel.

You may also use the numbers to select a channel or the channel buttons on the remote. The volume is controlled using the VOL button.

We have provided a current list of channels in the “House Book”.

Here a few popular channels: 32 (ESPN), 52 (CNN), 73 (GOLF), 4 (NBC), 70 (TCM). You have several Showtime & HBO channels FREE, look for them in the 500's. Desert Princess on Channel 98.

If you are having a problem with the remote or the TV, call us (usually an easy fix!) or call Spectrum directly at 760.340.2225. They can be very helpful & walk you through the setup or reboot.

Enjoy your stay!
